### LOCAL BUDGET EXPLANATORY STATEMENT

The amount to be raised by taxation and the tax rate for 1943 are estimates, due to the actual State and County Taxes being unknown and the Bank Stock Tax is also an estimate.

The tax rolls are now completed and the valuation of \$700,744,230.00 was used in computing the tax rate.

The amount to be raised by taxation as estimated is \$37,412,771.08, an increase from 1942 of \$186,507.24. This increase is not entirely reflected in the tax rate, because the assessed valuations for 1943 show a net increase of \$4,836,260.00; an increase of Personal Property Assessments of \$10,043,250.00 and a decrease in Real Estate of \$5,206,990.00.

The increase in the amount to be raised by taxation is accounted for in the following summary and the departmental appropriation would have to be further analyzed to determine whether the increases are the result of normal operating expenditures and reallocation of Departments

# MINUTES OF MEETINGS OF THE BOARD OF COMMISSIONERS

---

MARCH, 1943

---

**Newark, N. J., March 1, 1943**

An Adjourned meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 11:00 A. M. Eastern War Time.

Mayor Murphy: The meeting will come to order. The Clerk will call the roll.

Present: Commissioners Brady, Byrne, Mayor Murphy.

Absent: Commissioners Keenan, Villani.

Mayor Murphy: This meeting is being called today, as has been advertised, as a hearing on the budgets for the benefit of the public. I would like to ask the acting city clerk at this time to read a communication pertaining to the approved budget as submitted to Mr. Darby.

The Clerk then read the communication:

You heard the reading of the certification of the budget by Mr.

Dorsett for Mr. Darby. If there be no objection, it will be made part of the record.

I would like to announce at this time that there are some changes which have been made in the budgets, and it will be necessary for the City Commission to take action in order to comply with the law in connection with advertising and submitting it to Mr. Darby for his approval. I think it would be necessary at this time to have the approval of the Commissioners in submitting this resolution pertaining to the changes. Do the members of the Commission have any objection to the proposed changes being submitted?

Commissioner Byrne: I move that they be accepted.

Mayor Murphy: If no objection, the resolution of the changes will be accepted, and if there is no objection, Mr. Kranztohr, the auditor, will read the changes in resolution form.

Commissioner Byrne: We are "reducing" it.

Mr. Leon Kranztohr: Yes, "reduc-

ing" it. It will reduce the tax rate about six points.

Mayor Murphy: You have heard the reading of the resolution pertaining to these changes. I would like to state that if there are additional changes to be made, besides these changes, these changes that we have before the Commission today, it will be necessary to pass a resolution similar to this one we have here, and to advertise it. That should be accomplished before the close of this week, because the final adoption of the budget is for March 11th, which is the last date. Or, we can act at the next City Commission meeting, which is March 10th, a week from this coming Wednesday.

If there is no objection, the resolution will be presented for action by the City Commission. The clerk then read the Resolution in full.

Commissioner Brady: I move the adoption of the resolution.

Commissioner Byrne: I second it.

Mayor Murphy: You heard the motion to adopt the resolution. The Clerk will call the roll.

Yeas: Commissioners Brady, Byrne, Mayor Murphy.

Mayor Murphy: This resolution here (indicating) is one pertaining to the authorization for the advertising of these changes. The Clerk will read the resolution.

BE IT RESOLVED, that said amendments be published in the Newark Evening News, in the issue of March 2, 1943, and the Newark Ledger of March 3, 1943, and that a Public Hearing on these amendments be held at Commissioners' Chambers, on the 10th day of March 1943, at Eleven o'clock, A.M., at which time and place the objections

to said amendments may be presented by the Taxpayers or other interested persons.

Be It Further Resolved, that two (2) copies of this resolution be filed forthwith in the office of the Commissioner of Local Government, for his certification of the 1943 Municipal Budget, as so amended.

Mayor Murphy: The Clerk will call the roll.

Yeas: Commissioners Brady, Byrne, Mayor Murphy.

Mayor Murphy: The hearing on these changes will be held on March 10th, which is a week from Wednesday. So that any other resolutions which may be considered or passed by the City Commission can also be brought up at that time. And in the meantime, we can submit it to Mr. Darby for his certification or approval.

Mayor Murphy: Well, the budgets have been advertised, and I suppose I might as well start it off.

With reference to the Department of Revenue and Finance, there has been an increase of \$450,000 in round figures which is made up as follows: In the operating costs of the department, \$61,000, which is due, approximately \$45,000 of it, is due to the fact that there has been a bonus granted to the employees instead of the salary increases, for those who have received salary increases as of January 1, 1942, up to the present date. The difference between what they had received and 15 percent. Some have received an increase of five percent, and some ten percent and thereabouts. The total amount of money involved — with an agreement with the employees, because they felt as though it should be distributed equally. That seemed to be the unanimous

feeling of the employees, the total number employees. And the money was then divided into the total amount of money, and that was the difference between what increases were given, and what is considered today as the minimum amount of the increased cost of living during this time, and it is recognized by the War Labor Board as 15 percent. That gives each employee a bonus of \$250.00. And they felt that **they** should all share, and share alike, insofar as the bonus was concerned. So there was no actual increase; but it is on the bonus basis.

Mayor Murphy: Well, according to the roll call, I guess next would be Commissioner Brady.

Commissioner Brady: I am ready, Mr. Mayor.

Mayor Murphy: All right, Commissioner Brady.

Commissioner Brady: Mr. Mayor and Commissioners. My budget for 1943 is as follows: The total is \$3,164,797.80, which is a 23.4 percent reduction, as compared with the modified budget of last year, and accounts for a 15½ point reduction in the tax rate.

Commissioner Byrne: The taxable budget for the year 1942 for the Bureaus which are now in the Department of Public Works was \$3,420,112.23, which was \$200,287.58 less than the 1941 budget. A surplus of \$106,049.43 remained as of December 31, 1942. There is also a surplus of approximately \$105,000 in the Bureau of Docks, and approximately \$29,000 in the Airport, or a total of \$240,000 applicable to the funds necessary to operate the city for 1943, and which will be reflected in the **tax rate**.

The total budget of the Department of Public Works for 1943

amounts to \$1,554,020.70, a decrease of \$390,791.53, below the 1942 tax budget. The reduction includes a decrease of approximately \$20,000 for the servicing of automobiles, which item now appears in the Bureau of Motors' budget as a budgetary item under a ruling of Commissioner Darby of the Department of Local Government. This amount of \$1,554,020.70 which must be raised by taxes, includes the Director's Office and the Engineering Division, or Bureaus; the Division of Works Projects, the Division of Central Purchase, Law Department, and Foreclosure Costs and Liquidation of Tax Title Liens, as well as the maintenance of the Passaic Valley Sewer, Second River Outlet Sewer and Joint Outlet Sewer.

Mr. Luke A. Kiernan: Mr. Mayor and members of the Commission. The budget for the Department of Public Safety, amounts to \$6,360,811.65. I might say at the outset, that of course, the bulk of that is taken up with the recent police and fire raises. As a matter of fact, the entire budget of the department is represented in this way: 94 percent of the entire budget is represented by salaries, and 6 percent of the entire budget is represented by maintenance and other items of expenses.

There is an increase of \$624,665.63 over last year. That of course, could be explained, as I say, by the recent raises to the police and firemen of this city.

Taking the various items, we find in the Director's Office, an increase of \$2,100 over last year. That is represented by, or due to the fact that one of the members of the City Clerk's office was transferred to the Department of Public Safety, so that item does not actually represent an increase in the city's budget.

It is simply a transfer of budget funds.

Mr. James P. Pellecchia, Jr.: (Deputy) In the budget of the Department of Parks and Public Property, we have an increase of approximately \$319,854 over last year's budget. This is made up as follows: An increase of \$2,961 in the Director's Office, represented by an additional clerk-stenographer, which was needed in our office as we were undermanned, in taking over new divisions. And an allowance for the salary of a Director of Recreation, a position created during the year. Since his full term of the year has not run, the full salary is not put in last year's budget; so an additional \$1,458.40 was allowed.

This year, as far as salaries are concerned, there were various increases for the balance of the office staff of \$633.10, making a total of \$3,411 in increases. We decreased various items of the budget by \$450, leaving our original total of \$2,961.10.

A lengthy discussion of the budget followed. Those taking part in the discussions, including members of the Board of Commissioners, were: Edmund E. Wollmuth, representing the Chamber of Commerce; Herman W. Brams, John C. Feil, representing the Newark Taxpayers Association; Charles Shankroff, Corporation Counsel Raymond Schroeder, Dr. Lewis B. Blan, Administrative Examiner in the Department of Public Affairs; Luke A. Kiernan, secretary

to Director Keenan, Dudley Coles, Acting Chief Engineer; James Pellecchia, Deputy to Director Villani, L. H. Jamouneau.

Mayor Murphy: Is there anybody further who desires to be heard on the budget?

If no one else desires to be heard on the budget, I declare this hearing, as advertised legally in compliance with the law, closed.

I would like to state at this time that due to the fact that there have been changes in the budgets and the resolution passed it will be necessary to have a hearing on the items of the budget which have been changed, and on any other matter pertaining to the budgets, that may be considered by the directors and be changed between now and the date set by the Commission for the final adoption, which would be March 10th.

If there is no objection, we will adjourn until March 10th.

Commissioner Brady: I move that we adjourn.

Commissioner Byrne: I second the motion.

Mayor Murphy: The Clerk will call the roll.

Yeas: Commissioners Brady, Byrne, Mayor Murphy.

**Newark, N. J., March 10, 1943**

A Public Hearing on amendments to the Budgets of the City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 11:00 A. M., Eastern War Time .

Acting City Clerk: Mr. Mayor, this is the time set in the public advertisement for a hearing on the budget, on the amended items.

Mayor Murphy: The public hearing will come to order to consider the amendments to the budgets as advertised. The Clerk will call the roll.

Present: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Mayor Murphy: Will the Clerk please read the amendments to the budget?

Acting City Clerk: The budget is amended as follows: Direct relief from \$550,000 reduced to \$200,000. Division of Works Projects, salaries and wages, \$48,000 reduced to \$18,000; other expenses reduced from \$62,000 to \$31,000. Dedicated airport, other expenses \$1,900 increased to \$6,400.

Mayor Murphy: Is there anybody who desires to be heard in opposition to the reductions in the budget? This discussion will be confined solely to these items as advertised.

I want to make that clear, because otherwise, anyone speaking on anything else but on these items as advertised on the reductions at this time, will be declared out of order. Any citizen will be allowed to speak at two o'clock. Or, you will be allowed to speak at the opening of the regular conference.

Mr. Shankroff: That is satisfactory to me.

Mayor Murphy: Is there anybody else who desires to comment on these changes? eHaring of no one —

Mr. Jamouneau: Mr. Mayor, I would like to be assured, before I go away, that the budget will be entirely reopened for discussion at that time.

Mayor Murphy: The budget will be before the City Commission for adoption. The public was given an opportunity here two weeks ago to discuss the budget. The question now before the City Commission is on the changes of the budget.

The Clerk will call the roll.

Mr. Jamouneau: I would like to make this point of order.

(The Acting City Clerk calls the roll).

Commissioner Brady: "Aye."

Commissioner Byrne: "Aye."

Commissioner Keenan: "Aye."

Commissioner Villani: "Aye."

Mayor Murphy: "Aye."

Mayor Murphy: The budget, on this hearing on the changes is adopted. And the hearing is declared closed. The conference will now come to order.

Commissioner Brady: I move we adjourn.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

**Newark, N. J., March 10, 1943**

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date in the Commissioners' Chamber, City Hall, Newark, at 2:00 P. M., Eastern War Time.

Mayor Murphy: The meeting will come to order. The Clerk will call the roll.

Present: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Mayor Murphy: The Clerk will read the minutes of the previous meeting.

Commissioner Brady: I move that the reading of the minutes of the previous meeting be dispensed with.

Commissioner Villani: I second the motion.

Mayor Murphy: The Clerk will call the roll.

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Commissioner Villani introduced the following ordinance and moved its adoption on first reading.

The Clerk then read the title of the ordinance as follows:

An Ordinance creating a central planning board; and providing for the appointment of the members thereof and their terms of office; and outlining and defining the functions, powers, and duties of said board.

Commissioner Byrne: Mr. Mayor, I have not seen a copy of that ordinance as yet, and I would ask

that it be deferred for two weeks. I would like to look at it. I have not seen it as yet. It came in last night; so I would ask for that courtesy, please, and move it be laid over.

Mayor Murphy: Of course it will come up for passage in two weeks and then be deferred. If you want it that way. Well, all right, Commissioner Byrne has requested that the introduction of this ordinance be deferred for a period of two weeks.

Commissioner Keenan: I second the motion.

Mayor Murphy: I just would like to say that there are a number of organizations, representatives of the Chamber of Commerce and many other groups, that have held conferences on this matter, and I have told them that this ordinance would be introduced today. But, we will hold up the introduction of this ordinance on the request of Commissioner Byrne, and introduce the ordinance next week, at the next meeting of the City Commission. The Clerk will call the roll.

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Commissioner Keenan introduced the following ordinance and moved its adoption on first reading.

The Clerk then read the ordinance at length:

An Ordinance to prohibit maliciousness and vandalism with respect to "Victory Gardens" and providing penalty for same.

WHEREAS, in order to promote the conduct of "Victory Gardens" it becomes necessary to protect the

owners, occupants and operators thereof against mischievous and vandalistic acts with respect thereto.

The motion was declared adopted by the following votes:

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Commissioner Keenan moved that March 24, 1943, Eastern War Time, 2:00 P. M., or as soon thereafter as said matter can be reached, and the Board's meeting room, second floor, City Hall, Newark, N. J., be fixed at the time and place when and where said ordinance will be further considered for final passage, and that the City Clerk be and he is hereby directed to publish said ordinance and give public notice of its introduction and passage on first reading as provided by law.

The motion was declared adopted by the following votes:

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Commissioner Keenan introduced the following ordinance and moved its adoption on first reading.

The Clerk then read the ordinance at length:

A supplement to "An Ordinance" entitled "An Ordinance relating to and fixing the salary of certain employees of the Division of Fire and Police, of the Department of Public Safety," adopted, December 16, 1942.

The motion was declared adopted by the following votes:

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Commissioner Keenan moved that March 10, 1943, Eastern War Time, 2:00 P. M., or as soon thereafter as said matter can be reached, and the Board's meeting room, second floor, City Hall, Newark, N. J., be fixed as the time and place when and where said ordinance will be further considered for final passage, and that the City Clerk be and he is hereby directed to publish said ordinance and give public notice of its introduction and passage on first reading as provided by law.

The motion was declared adopted by the following votes:

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Acting City Clerk: That is all on first reading, Mr. Mayor.

The City Clerk presented "An Ordinance to repair, close or demolish dwellings which are unfit for human habitation," and stated today was the time fixed for a further hearing, this being the adjourned date for same.

Mayor Murphy: You heard the reading of the title of the ordinance. This is an ordinance on the demolition of buildings. Is there anyone who desires to be heard in opposition to the ordinance?

Mr. Charles Shankroff: Mr. Mayor, may I ask what is the procedure now, before the adoption of this ordinance and the appointment of this official to superintend this new department? What is the procedure now? What is the procedure if you find any of those conditions mentioned in the ordinance?

Mayor Murphy: Commissioner Brady or Commissioner Keenan could answer that. The Zoning Department comes in at one end of

it, and the Health Department on the other.

Commissioner Brady: The procedure now, Mr. Shankroff, is where we find conditions unfit for human habitation, we post a sign, that is in the building we post a sign — when I say “we,” I mean the Health Department — indicating that fact, and we notify the owner or the manager or the agent of the property, that it must be repaired in a certain specified time. But, there does not seem to be any provision in the law that makes it possible for us to take the proper action against the landlord or agent or manager of the property, if he does not comply with the request of the Health Department. There is, however, a new statute, which was passed in 1942, I think, last year, that empowered any municipality to pass ordinances, such as this one presented here, and in that ordinance and in the state law, it empowers the municipality to take the proper action if the person so notified does not comply with the order of the Director of Rehabilitation.

Commissioner Keenan: I would like to make it clear and I say that the rights of occupation is one of sanitation wherein the Health Department becomes a prime factor. But in an unoccupied building, in such a condition where demolition is necessary, the building superintendent must make an application to the courts for the right to demolish a building. As was the case in that shoe shop on 14th Avenue; that building was about to fall, and it took us almost a year in the courts to get the privilege or the right under the existing laws, for the superintendent of buildings to demolish that building. We have demolished several along Broome Street and Charlton Street in that Third Ward question.

Now, I question the ordinance as

being a usurpation of the prerogatives and duties of the Superintendent of Buildings, with regard to unoccupied buildings for demolition. So, under the circumstances, I am opposed to the resolution, or the ordinance, rather.

Mayor Murphy: I don't know whether the Law Department has — who in the Law Department has approved it?

Commissioner Brady: Mr. Kane has approved it from the Law Department.

Commissioner Keenan: Suppose we “lay” it over, and get Bigelow and Kane here.

Commissioner Brady: “Lay” it over for a minute, anyway.

Mayor Murphy: Let the Clerk read one of the other ordinances on second reading in the meantime.

The City Clerk presented the following ordinance and stated that today was the time fixed for a further hearing, this being the adjourned date for same.

The Clerk then read the ordinance at length:

An Ordinance to authorize the borrowing of \$300,000 by the issuance of Bonds and Bond Anticipation notes pursuant to the local bond law to finance improvements to the water supply system of the City of Newark.

The Board then entered upon said hearing.

Mayor Murphy: Does any citizen desire to be heard on this ordinance.

(No response).

No one appearing, Commissioner

Villani moved that the hearing be closed.

The motion was declared adopted by the following votes:

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

The ordinance having been read three times was then declared to be upon its third and final passage.

The ordinance was declared adopted by the following votes:

Yeas: Commissioners Brady, Keenan, Villani, Mayor Murphy.

The City Clerk presented "An Ordinance regulating the salaries of the members of the Board of Assessment and Revision of Taxes."

Commissioner Keenan: I move it be laid over.

Commissioner Keenan: Here is Mr. Fiverson. Do you want Fiverson now to speak on that ordinance? He will explain the differences in it.

Mayor Murphy: You understand what is before the Commission now on this ordinance pertaining to the demolition of buildings?

Acting City Clerk: This is the ordinance to repair, close or demolish dwellings which are unfit for human habitation.

William Fiverson: I have read the ordinance, sir.

Mayor Murphy: Well, Commissioner Keenan has requested you to come here in order to get your views on this ordinance.

William Fiverson: I understand what you have just said. All I could say is that the building department, for the past 30 years, has always had the responsibility of making safe or removing unsafe buildings. We still have that responsibility, and we have been doing that for many years. I might just go a little further and say we too have tried to take down buildings which were dangerous, but with which we have had no authority from the owners to do, nor did we have any authority from any court. And we found that we were threatened if we attempted to destroy any building without due process of law, we would have to pay for those buildings, and we never did that. But we found, before we were able to declare a building that might be hazardous to pedestrians, we were obliged to appeal to the Grand Jury to declare a building unsafe. An even after the Grand Jury does that, we still cannot destroy those buildings, knowing that they might collapse; and we then have to wait until the matter is heard by a court, and the court order us. And that procedure was followed in the case Commissioner Keenan speaks of, the court factory, and others.

We, of course, have many buildings around town that might appear to all you Commissioners to be sub-standard buildings, and they are sub-standard; but they are not dangerous. And it is only when they become dangerous to pedestrians, that is the only time we could step in the picture and take measures that they may be taken out of the way, taken down. And we have a right to go in and make them safe, under the Building Code; but we don't like to do that, because we have got to spend money to do it, and we don't have the money now appropriated to do it. So we take the course of going before the Grand Jury. But that is our duty, and it always has been.

Commissioner Brady: I would like to ask one question, before Mr. Fiverson leaves. Do you recall, to the best of your knowledge, when the procedure was started against the court structure, and when you finally had the building removed; how long it took?

Fiverson: That took several months. I recall about three months, between the time we petitioned the Grand Jury and before the time the court finally granted an order to take it down.

Commissioner Brady: Yes, I recall it. I was captain of the Fourth Precinct at the time, and reported it to the Building Department. I wanted to see how good your memory was. It took several months. And only due to the fact that we have such a fine police department which we had in those several months, did we keep people from being killed. And that is the purpose of this ordinance. We don't want to wait several months in order to do it.

I am not going to pass on the legal questions; but I am going to ask Mr. Kane to pass on the legality.

Mr. Thomas Kane: This ordinance, Mr. Mayor and gentlemen of the Commission, is patterned after the 1942 law, Chapter 112. This ordinance embodies all of the powers and all of the duties, and all of the rights, we will say, that are in that statute. It specifically sets forth here — and this statute of 1942, which permits this ordinance, is more comprehensive than any statute we have had on the books up to this one — this statute and this ordinance gives this man called the Superintendent of Rehabilitation, more power than the building department has now, because he makes his investigation, and if he makes a finding that the place is unfit for human habitation,

he summons the owner before him and gives him a hearing. And if on the facts he decides that the place is not a proper place, he could order the building repaired, altered, improved, or even demolished by the owner, within 90 days; and if the owner does not do that, then he has the power to go ahead and make the necessary repairs and charges it against the building, or he may cause the building to be demolished.

Commissioner Keenan: Why then, from my interpretations as a layman of that phraseology, is it a division of responsibility, instead of it resting solely on the shoulders of the building superintendent; why does it divide the responsibility?

Mr. Kane: No. It does not interfere with the duties of the Building Department, and it does not interfere with the duties of the Health Department. It is supplementary to the duties.

Now, as to the constitutionality of the point, I don't know. It has never been raised. But I say this ordinance is exactly as the state law of 1942; and there isn't any conflict or usurpation of powers.

Commissioner Keenan: All right. That is okay with me. Put the ordinance in, and I will oppose it. I will get "licked"; so what is the difference.

Commissioner Villani: I move that we postpone this matter for two weeks, to see if Director Brady will make a change in it.

Commissioner Keenan: I second the motion.

Mayor Murphy: Motion has been made that the ordinance be deferred for two weeks. The Clerk will call the roll

Yeas: Commissioners Brady, Keenan, Villani, Mayor Murphy.

Mayor Murphy: If there is no objection, Commissioners Brady and Villani will be recorded in the record as favoring the resolution introduced by Commissioner Keenan two weeks ago, appointing Matthew Bolger as the deputy chief in the Police Department.

Now, I have a resolution, or rather a request of the Commission and I want to bring it to its attention. This is in reference to Mr. Darby, Mr. Walter R. Darby, the State Auditor of Accounts, whose term of office expires. I don't know what his politics are, although I think it is Republican; but I do want to say in reporting to the Commission, that our experience over the past several years with Mr. Darby has been very favorable. He has been very helpful. While with some of his criticisms I have not agreed with, with many of them we have agreed with. And he has been very helpful and has made many changes in the financial structure of the city.

Personally, I think he is a fine, high type man in the state of New Jersey, and I think he should be retained. And in the absence of Commissioner Byrne—I had spoken to him a little while ago about it, and he had expressed himself about it the same way, and he said that

he saw no reason why the Commission, if it so desired, should not pass a resolution requesting the legislature and instructing the legislature that the Commissioners of the City of Newark feel that New Jersey has a fine and high type man in Walter R. Darby, and that he should be reappointed to that office.

Commissioner Villani: I so move you, Mr. Mayor.

Commissioner Keenan: Mr. Mayor, don't you think that that is establishing some kind of a bad precedent in the appointive authority, other than us? I think you are establishing a risky precedent. And in regard to 81, if it has not been brought to your attention, our legislative representative is derelict in his duties, because just two weeks ago, he was given instructions to bring to our attention any matter, legislative matter, that affected the city of Newark.

Mayor Murphy: That may be true, but the first I heard about it is today, when I heard him say to you, Director, something along that line, that he had mailed objections already to the legislature.

Commissioner Keenan: He was told to let you know, too.

Mayor Murphy: And I certainly don't intend to vote on anything that I don't know anything about.

Commissioner Villani: I move we go along with the recommendation on Darby.

Commissioner Brady: Mr. Mayor, before I vote on it, I would like to make a statement. I, like yourself, have a great deal of respect for Commissioner Darby. I think he is a fine man, and I feel he is competent and has the capabilities to carry on the duties of his office;

but I agree to a certain extent with Commissioner Keenan, that we may establish a precedent. I hope that he is reappointed. But I also feel that if any member of the Commission desires, he can send a personal letter to the governor, and recommend his appointment, or rather, suggest, not recommend, his appointment.

I don't feel that as a member of this Commission, that I should be a party to a resolution adopted by the Commission; but, however, I will say, Mr. Mayor, that I agree with everything you say concerning Commissioner Darby.

Commissioner Keenan: I too agree.

Commissioner Brady: And I certainly would like to go along with it, but I don't think we should do it as a body. I think if we care to do it as an individual, I think we have a perfect right to exercise that privilege.

Commissioner Keenan: Now, before the discussion closes, I want it thoroughly understood and recorded in the minutes that I have the highest regard and the greatest respect for Mr. Darby, personally, and for his ability as budget director.

Mayor Murphy: What other business do we have now?

Acting City Clerk: We have the resolution on the budget.

Mayor Murphy: We have the resolution on the budget. The Clerk will read the resolution.

Commissioner Villani: I move the

Commissioner Keenan: I second  
the motion.

Mayor Murphy: You heard the  
reading by the clerk of the resolu-  
tion on the budget. A motion has

been made that the budget be ap-  
proved, and it has been seconded.  
All in favor signify by saying "aye."  
The clerk will call the roll.

Yeas: Commissioners Brady,  
Keenan, Villani, Mayor Murphy.

Mayor Murphy: I want to correct

that statement and say that a motion was made that the budget be adopted instead of a motion that it be approved. I would like to mention at this time, that Commissioner Byrne is unable to be here. He was here this morning and this afternoon, but he had to leave. But he has signed his name for the adoption of the budget.

Commissioner Keenan: It might be well, Mr. Mayor, while we are on the question of the budget to make known the fact that having been but two years in office, we have shown a reduction of the tax rate of some sixty or sixty-one points. We inherited a tax rate of \$5.88, as you will recall.

Yeas: Commissioners Brady, Keenan, Villani, Mayor Murphy.

**Newark, N. J., March 24, 1943**

A regular meeting of the Board of Commissioners of the City of Newark, N. J. was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 2:00 p.m. Eastern War Time.

Mayor Murphy: The meeting will come to order. The Clerk will call the roll.

Present: Commissioners Brady, Keenan, Villani, Mayor Murphy.

Mayor Murphy: The Clerk will read the minutes of the previous meeting.

Commissioner Villani: I move that the reading of the minutes be dispensed with.

Commissioner Keenan: I second the motion.

Mayor Murphy: It has been moved that the reading of the minutes be dispensed with. The Clerk will call the roll.

Yeas: Commissioners Brady, Keenan, Villani, Mayor Murphy.

Commissioner Murphy introduced the following ordinance and moved its adoption on first reading.

The Clerk then read the ordinance at length:

An Ordinance creating a central planning board; and providing for the appointment of the members thereof and their terms of office; and outlining and defining the functions, powers, and duties of said Board.

Mayor Murphy: I would like to announce that this ordinance creating a central planning board, in

line with the statute of the state of New Jersey, is being introduced today on **first reading. This ordinance**, if it is accepted on first reading, which as I understand it will be, by the Commission, will come up two weeks from today for the second and final reading, at a public hearing, at two p.m. in the afternoon.

I would like to say at this time that I have received numerous letters from organizations and from individuals who believe that a planning board should be established in the city of Newark.

I think the state, before very long, will take some action in setting up a special Commission — and may I say, I met with representatives of the state last week, and a bill is being introduced before the state legislature, which will set up a special commission in the state. If adopted, it will deal with post-war planning. And certainly we have a duty and an obligation now, to prepare for the planning. It will bring about a discussion from the people, as to whether or not they want planning.

Mrs. Don Ruotolo: I would like to speak today, Mr. Mayor, for fear some people here today may not be able to get back two weeks from

today. We feel that the movement that Mr. Brady had started towards rehabilitation, is a good one. We feel that the 12 projects that are filed in Washington, of which we know very little and we would like to know more, are also a step in the right direction. But we should like to feel that in setting up this Board, that there will be a master plan for Newark — not isolated projects. Never again let us have a housing project at one end of the city where we have to transport our children two miles to the nearest school. Never again let us have one section of the city with plenty of recreational facilities, and parks and good playgrounds, and another section of the city with none of these things. In other words, let us give equal opportunities to every child in our city, whether it be through our schools, or parks or playgrounds or hospital facilities.

Yeas: Commissioners Brady, Keenan, Villani, Mayor Murphy.

Commissioner Brady: I would like to get into the record, Mr. Mayor, a letter from the Civil Service Commission. It says, "State of New Jersey, Civil Service Commission, Trenton." It is dated April 2nd, 1943, with the following names appearing thereon: Vincent P. Keuper, President. John E. Joyce, Harry C. Harper, James K. Allardice, Joseph L. Delate, and Charles P. Messick, Examiner and Secretary. It is addressed to the Honorable John A.

Brady, Director, Department of Public Affairs, City Hall, Newark, New Jersey. It reads:

"The Commission at its meeting on March 30th, approved the titles and salary ranges for the positions as shown on the attached sheets, pending final passage of the ordinances which the Commission understands will be introduced embodying these titles and salary ranges for each division now comprising the Department of Public Affairs, as well as a resolution allocating the various employees to the classes of positions. Yours very truly, The Civil Service Commission, by Charles P. Messick, Chief Examiner and Secretary."

And the proposed changes are herewith attached.

Mayor Murphy: I see Counsellor Kane here now. Will you kindly inform the Commission as to whether or not these changes that have been made by Director Brady in the amendments to the ordinances, are to such an extent that they would make it necessary to advertise again before final adoption of the ordinances today?

Mr. Thoms Kane: It is my opinion that it is not necessary, because the only time you have to readvertise is where the amendments are substantial. Now, if you will check over the ordinances, you will find that in some of the instances, they are just a slight change in the name of the titles, to comply with the Civil Service request. For instance, we have on where it is "Supervisor-Instructor of Nurses," and that is changed "Supervising Instructor." And there are two or three where the salary changes are, I think from One Hundred to Two Hundred Dollars. An on one job, the minimum salary is listed at \$800, and it should have been \$900. And also where it

is listed at \$900, it should have been \$800. And another one which is listed at \$600, it should have been \$800. There was a typographical error. So, I don't think the changes are substantial enough to warrant a readvertising of the ordinances.

The City Clerk presented An Ordinance regulating the salaries of the members of the Board of assessment and Revision of Taxes, and stated today was the time fixed for a further hearing, this being the adjourned date for same.

Commissioner Villani: I move it be laid over for two weeks.

Commissioner Keenan: I second the motion.

Mayor Murphy: The Clerk will call the roll.

Yeas: Commissioners Brady, Keenan, Villani, Mayor Murphy.

Acting City Clerk: That is all on "ordinances."

Mayor Murphy: I would like to state once again that the ordinance — in case there is anyone here with reference to the ordinance on the establishing of the Planning Board, that that ordinance has been deferred because of the absence of Commissioner Byrne, until two weeks from today, April 21.

I want to bring to the attention of the City Commissioners, in reference to Assembly Bill Number 10, pertaining to the changing of the boarding houses into hotels in the City of Newark, that a motion was made this morning. I don't have it exactly from the record, but I think it was to the effect that Section 3, the Commission went on record to amend Section 3 of Assembly Bill

No. 10, to instruct the legislative counsel to change the present bill to read "20 rooms and 40 persons" instead of "10 rooms and 20 persons."

Commissioner Keenan: Mr. Mayor, while we are on the subject of Assembly Bill No. 10, I would like to say at this time that this bill in no way emanates from any citizen of Newark, and in particular from any member of this City Commission. As I understand it, it was introduced by the Chairman of the Essex Delegation at the request of the speaker of the house, who comes from Passaic County.

Commissioner Brady: I so move you, Mr. Mayor. I move the City Commission go on record as opposing the bill in its entirety and I make that motion because the City Commission was not consulted.

Commissioner Keenan: I second the motion before the Commission to oppose it in its entirety.

Mayor Murphy: Motion has been made and seconded. The Clerk will call the roll.

Yeas: Commissioners Brady, Keenan, Villani, Mayor Murphy.

Mayor Murphy: The legislative representative of the city will be so instructed to notify all the members of the legislature that the City Commission is opposed to the Assembly Bill in its entirety.

The Board of Commissioners approved the following bills, claims and payrolls:

But we hope to work fast on it anyhow, and we will try to get notices in the newspapers as to the time the hearings are to be conducted.

This ordinance has been before the City Commission a number of months. The resolution was declared adopted by the following votes:

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Acting City Clerk: We have a resolution awarding a contract for cleaning and relining of the water pipe from the Macopin Intake to the various townships.

Mayor Murphy: This resolution was discussed at the conference this morning. Commissioner Brady, I think, requested that there be a delay on it.

Commissioner Brady: I did, Mr. Mayor. I requested that this morning. This matter was discussed further after I left this morning. I understand, after I left this morning, there was a further discussion on the proposed resolution. And I would like to have an opportunity to examine these minutes, and find out what the discussion was. I will be prepared within a couple of days to give my decision as to what stand I will take on the matter.

I don't intend to vote on it today. But I will be prepared in a couple of days. I presume there will be no harm in it.

Mayor Murphy: If there is no objection — of course this is Director Byrne's resolution and will it be agreeable to him that this resolution be not voted on, rather than to de-

feat t today It would be deferred until a special meeting of the City Commission.

Commissioner Byrne: Mr. Mayor and members of the Commission. I have presented the resolution this morning in the informal session, and I have so notified you, and I have notified you this morning that I intend to move it today. The resolution is there now. I am not making any request that the resolution be withdrawn today because I think this definitely should be voted on today. I stated my reasons in great length. Now, if there is a request from Director Brady that it be held over for a few days, until such time as he could study this matter further, in spite of the fact that I think I spoke to Director Brady in full, as much as I know about it, and we discussed it at great length this morning, I am willing to grant that, because I want to give everybody a fair chance, as I have right up to today, on this matter; and at the same time I don't want to take the responsibility, and I do not, if anything happens in the interim.

I think this is a matter that should be voted on today; and if there is opposition to it, I want to be absolved of any responsibility for anything happening in our water system while this matter is pending.

Commissioner Brady: Commissioner Byrne, I would like to state that you discussed the matter with me yesterday, and we went into it at great length, and you discussed it very intelligently and it made a great impression upon me; and I am still inclined to feel that you are right; but I did not hear the other side, Commissioner, and . . .

Commissioner Byrne: (Interrupting) Yes, you did, Director. The other side was present this morning.

Commissioner Brady: I did not

hear all the other side, Commissioner Byrne.

Commissioner Byrne: I don't think that there was anything presented by the other side.

Commissioner Brady: Yes, there was.

Commissioner Byrne: I don't think there was. Who said there was?

Commissioner Brady: My deputy tells me there was.

Commissioner Byrne: There was further evidence given by the other side, but no objection raised by the other side at all.

Mayor Murphy: I guess the part he has reference to, Commissioner Byrne, is this gentlemen's testimony, Mr. Nesto. I guess you were not there (addressing Commissioner Brady).

Commissioner Brady: No, I was not there. I did not hear this story, Commissioner Byrne, I would like to have an opportunity to review his testimony. I will be ready to vote on it as soon as I read it.

Mayor Murphy: Well, if there is no objection, Commissioner Byrne is withholding the resolution.

Commissioner Brady: I don't think it should be laid over for two weeks.

Commissioner Villani: Then you can't vote on it.

Commissioner Brady: Why not? Why can't we have a special meeting? Why can't a special meeting be called if something important is going to occur? I think if it is of enough importance, to call a special meeting, that a special day to decide on it should be set

Mayor Murphy: I already made that statement. Just as soon as Commissioner Byrne wants to have a special meeting called on it, as soon as he hears from you, I will be ready to call a special meeting.

Commissioner Byrne: Why not make it subject to the chair, on Monday?

Commissioner Brady: It is all right with me.

Mayor Murphy: I don't know just now what I have on my book downstairs.

Commissioner Brady: Providing that I get a copy of the testimony, of the minutes, this morning.

Mayor Murphy: Now wait a minute, when can we get the transcript? (Addressing the stenographer).

(The stenographer advises that it will be ready by Monday morning).

Commissioner Brady: Couldn't we continue this meeting, subject to the call of the chair?

Mayor Murphy: I guess the meeting could be recessed, and continue it until a certain date.

Commissioner Byrne: All right.

Mayor Murphy: Then, if there is no objection, the city clerk will stand instructed to call a special meeting of the City Commission to act on this resolution for next Tuesday, at ten-thirty, in the office downstairs.

Mr. John Clancy: May I suggest, if you are to have a meeting, that you have it for either Monday or Wednesday? Because I have been notified at the conclusion of the hearing I have just attended, that I will have to report there on Tuesday, at eleven-fifteen.

Mayor Murphy: Wednesday will be the best time.

Mr. John Clancy: Is Wednesday agreeable with Mr. Fox?

Mr. Fox: Yes.

Mayor Murphy: Then, if there is no objection, the meeting will be called for next Wednesday, at ten-thirty, at the office of the Mayor.

(Commissioner Byrne leaves).

Well, this meeting, as you know, was called for the consideration of the resolution as it was introduced, awarding the contract to the Lock Joint Pipe Company. It is open for discussion.

The proposed contract was discussed at length by the Commissioners, and at the conclusion Director Byrne offered the resolution awarding the contract. It contained two signatures, and the Director asked that it be passed or rejected and not laid over.

Mayor Murphy: Well, the resolution is before the Commission. My position is that it should not be rejected, but that it should be laid over to give an opportunity for a further check-up by the members of the Commission who desire it, as Director Brady has indicated. A further check-up into the application of another system, which has been mentioned here, I believe, as the Gunit system.

Commissioner Byrne: I offer it now to be accepted or rejected at the meeting today. And I will not withdraw the resolution.

Commissioner Brady: Are you putting it to a vote, Mr. Mayor?

Commissioner Byrne: Then it is rejected then. (Someone whispers to Commissioner Byrne). It is adopted then, Mr. Corporation Counsel, do I understand that resolution is adopted with two votes, two to one? Two men not voting.

Mr. Raymond Schroeder: I think you have to have a majority of the members of the Commission present voting in the affirmative, and a majority of five is three

I would like to state that there have been a number of letters received by all the members of the Commission, and, for the record, in favor of it.

I have "broken" them down to the following streets:— Ferry Street: Ferry Street Merchants Association, Malheiro & Co.; Anderson's; Goldfinger's, Childrens Store; Julio Moraes, Jewelry; Harry Fein, Furniture; J. Heller & Son, Inc., Hardware; J. D. Nussbaum, Clothier; Ironbound oHsiery Shops; Ilya Osa; I. Hems' Department Store; Samuel Leibert; Ironbound Mattress Co.

Orange Street: Leonard's Specialty Shop; Boys Shop; Rich's; M. Neuss & Sons.

Clinton Avenue: Borok Co., Inc.; I. Chernus & Co.; Levinson's Furniture; Gaby's Bargain Shop; Universal Upholstering; Fox's, Clothing; Clinton Paint Supply, Inc.

And telegrams from the South Orange Business Men's Association; Roseville Merchants and Civic Association; Broadway and Bloomfield Avenue Business Men's Association.

Those are the ones that we received, in favor of the ordinance. I think, Commissioners, in order to save time, we will leave all that as part of the record.

You heard the reading of the title

of the ordinance. Is there anybody who is opposed to the ordinance?

Speaking at the hearing were: Fred Harries, representing the Broad Street Association; E. W. Wollmuth, representing the Chamber of Commerce; Herman Blank, Max Sherman, John Hill, Assistant Corporation Counsel Louis Fast, and members of the Board of Commissioners.

The ordinance, as amended, having been read three times was then declared to be upon its third and final passage.

The roll being called, the ordinance, as amended, was declared adopted by the following votes:

Commissioner Brady: Mr. Mayor, before I vote, I want to make this statement for the record: I do not agree with the statement that the Commission is forcing this ordinance upon any group or individual. The Commission represents all of the people of Newark, and when a group of business people make a reasonable request to have some lawful supervision exercised in the regulation of their business, and as a result of their request, an ordinance is introduced, properly advertised, with a date set for a public hearing, etcetra, and giving all persons an opportunity to be heard for or against the matter, I believe the Commission should be guided by the preponderance of opinion for or against it.

We are chosen by the people of this city as their public representatives. It is therefore axiomatic that we are duty-bound to respond to the wishes of the majority of the people.

I believe, Mr. Mayor, that a further consideration is involved besides the hours and the war effort.

I believe the health of the persons who operate these various business places is involved, and I know just as you do, Mr. Mayor, that certain retail people up in the Vailsburgh Section, has approached me and asked me to do something concerning this ordinance when it was brought before the Commission; and they are substantial citizens of the city. And as I have indicated before, everybody has had an opportunity to appear either for or against it; and it seems to me that the preponderance of the citizens who are interested in it are here today in favor of it. And I therefore vote for the adoption of the ordinance.

Commissioner Byrne: "No."

Commissioner Keenan: "No."

Commissioner Villani: "Yes."

Mayor Murphy: "Yes."

Mayor Murphy: In connection with the ordinance that has just passed, I believe everyone understands that ordinance will not become effective until ten days after the adoption by this Commission.

The City Clerk presented "An Ordinance providing for the vacation, release and extinguishment of the public rights of and in the following streets as laid out on the Map of the Commissioners to lay out Streets, Avenues and Squares," and stated that today was the time fixed for a further hearing, this being the adjourned date for same.

The Board then entered upon said hearing.

Mayor Murphy: Is there any citizen who desires to be heard on this ordinance?

No one appearing, Commissioner Byrne moved that the hearing be

closed.

The motion was declared adopted by the following votes:

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

eYas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Commissioner Keenan: Mr. Mayor, before we go into the introduction of the bills, claims and payrolls, I would like to say that I am introducing three resolutions today, conditionally appointing certain men who have been certified by the Civil Service for positions in the Police and Fire Department and the Record Bureau, of the Department of Public Safety. Those receiving such appointments are now serving in the armed forces of the United States, and would, except for that fact, have been already appointed to such positions.

In view of the fact that the certified list on which the names of these men appear will shortly expire, I feel that the least we can do for those who are offering their lives for our benefit, is to preserve their Civil Service status.

These men, are, of course, receiving no pay during their absence, and their actual appointment is conditioned on their passing the usual physical examination subsequent to their discharge from the military service. I ask that those resolutions be favorably passed upon.

Mr. Leslie H. Jamouneau: Mr. Mayor, may I ask that the resolution referring to the renewal of the lease with the Franklin Land Company be laid over for a couple of weeks?

Mayor Murphy: A resolution referring to what? I did not "get" you.

Mr. Jamouneau: The resolution for the renewal of the lease of the Franklin Land Company—or rather, the Franklin Lumber Company.

Mayor Murphy: That is Commissioner Byrne's resolution.

Commissioner Byrne: Is there any particular reason for it?

Mayor Murphy: What is your reason?

Mr. Jamouneau: Well, I have not had time to look into it, and I believe that it should be examined; and I cannot find that any discussion was had on it at the conference this morning.

Commissioner Byrne: What is your reason for it?

Mr. Jamouneau: From my cursory reading of the resolution, it does not seem to me to be quite in order. It refers, it seems to me, to a renewal of an option, and yet if you read it correctly, the terms seem to be altered from the original lease. And I think that the alteration of these terms ought to be considered within the limits of their right of an option. And I don't think you could do that without a more complete discussion of it.

If you put the thing over for two weeks, I will write to you if I have any further information, or suggestions to make.

Mayor Murphy: Commissioner Byrne stated to me that it is only authorizing the renewal of the lease under the terms of the present lease; and if there is anything illegal about it, you still have time to take the matter up. And he is going to move the resolution.

Mr. Jamouneau: I would like to renew my application to postpone it

for two weeks, because this will have the effect of binding the city if you pass this resolution. There is no necessity for hurry, because the lease does not expire until December 31st, and it is only a reasonable request to have it go over for a couple of weeks.

Mayor Murphy: Board of Adjustment matters.

Egan, representing himself as a taxpayer and the Dreamland Arena as counsel; and the Roller Skating Rink Operators Association of America; Chief Probation Officer Murphy; Mr. Herbert Walwyn, representing "Introductions."

Mr. Milton Hendler, appearing as an individual, favored the adoption of the ordinance.

Commissioner Keenan: Mr. Mayor, Commissioners, ladies and gentlemen. I think that after an explanation is given as to just what the ordinance will be and the manner

in which we in the Department of Public Safety hope to set it up, or to activate it, everybody will be satisfied, and in particular those who spoke representing, as each one did, some branch of the community and its activities. When the ordinance and its mechanics are understood, then those of you who are here this afternoon, will realize that the youth to which you have referred, will in no way be affected by this ordinance. It goes back to the saying that no good adult or juvenile has anything to fear with regard to the laws, rules or regulations.

Now, with all due respect to the various acts that have been mentioned wherein the youth of our city will be engaged to an hour in some cases later than ten o'clock, the ordinance provides for them to be on the street. But it must be understood by each and everyone, as it is understood by me in particular, and especially from the correspondence that reaches my office, that there are other juveniles not those referred to by the speakers who appeared here today, but other juveniles, that need some regulation.

Now, great stress has been laid on the importance of the war-working mothers. Every mother is not engaged in a defense plant, and some of the negligent parents are not engaged in labor or defense plants; and woe be to them when a police department must be called upon to assume the responsibilities of motherhood — and I use that word advisedly.

I spoke some seven or eight months ago before the organization of which Julius Flink is president. In my short discourse, I too said the primary responsibility of the juvenile delinquents rests upon the shoulders of the parents, but far too many of those parents assume no responsibility with regard to their

children. They don't know where they are, not whom they are with long after ten o'clock, and on many occasions, long after the wee hours in the morning. I would that it was possible to extend an invitation to every interested citizen, man and woman, to ride the streets with me — and I do it frequently to one, two, three A. M., and yes, to four o'clock in the morning — and these are some juveniles other than those referred to in the conversation of those who appeared before that microphone who do need attention about it, and be it through a curfew or through any other means.

Now, I will try to outline just what I tried to do, and I feel that when this explanation is given, every decent man and woman would be proud to know that the City of Newark has taken it upon itself, the responsibility to do something with regard to certain activities that are going on with youngsters classified as juveniles.

Under the curfew ordinance, I propose to establish in the Department of Public Safety the Juvenile Bureau, which will have for its purpose the handling of all cases and matters which come within the curfew of the curfew ordinance.

In order to avoid the necessity of the apprehension of the children under sixteen years of age, except where absolutely necessary, the Bureau will handle the individual problems and cases in a manner best calculated to produce the desired effect, that is, to clear the streets and other public places of juveniles under the age of sixteen, who are not accompanied by parents or guardians, or who are not on legitimate business after ten o'clock in the evening.

Now, it is not the intention of this ordinance nor its purpose to stigma-

tize any of the growing youths of this community where I first saw the light of day.

The Bureau will be headed by Sergeant Margaret T. Dugan, who will have under her command a sufficient number of acting police-women operating under her direction, and who will in every possible way attempt to educate not only the children, but the parents as well in the absolute necessity for cooperation during this war emergency period. Of course, the entire personnel of the Newark Police Department will aid and assist this Bureau under any and all circumstances.

I feel that the establishment of such a Bureau in the Department of Public Safety, operated by the female members of the Police Department, can and will do an effective job in carrying out the provisions of the Curfew Ordinance.

In order to secure the cooperation of all parents and those who have the care and custody of children, the personnel of the Juvenile Bureau will make every effort possible to contact those whose children are found upon the public streets or in public places after ten o'clock in the evening. I am sure that every person in the city will want to cooperate. However, in the alternative, steps will be taken to enforce the general provisions of the ordinance against parents and guardians who are lax or remiss in their duty in that direction.

This Bureau, in addition to the enforcement of the Curfew Ordinance, will also be chargeable with the investigation of all juveniles who are or may be hereafter apprehended for any reason whatsoever, and toward that end will cooperate with all child-caring agencies in order to effectually minimize the juvenile problem.

I would like to inject this, with all due respect and with the highest regard for all social agencies; that too much talk "has gone over the dam." Their representatives know we have been discussing this act. There have been discussions with regard to juveniles for longer than a year, and to the effect that there should be cooperation to this ordinance that I had helped to create.

Juvenile delinquency and the curfew ordinance: Since the introduction by me of the Curfew Ordinance regulating the presence of minors under the age of 16 years on the public streets and other public places in this city, there has been some speculation, not to say criticism, on the part of a few individuals or groups concerning its advisability. Most of the comment in that direction has been forthcoming from those who reside outside of the City of Newark.

The Curfew Ordinance was proposed by me after I had given the matter very considerable thought, and as I indicated in my original announcement, I am very definitely of the opinion that its advantages far outweigh any disadvantage that might be forthcoming therefrom.

The enactment of the Curfew Ordinance will not be a panacea for the delinquency or pre-delinquency problems, but it will give the personnel of the Newark Police Department an added implement in dealing with juveniles and stimulate stricter parental control.

There has been a great deal of discussion since the outbreak of the war about juvenile delinquency, and many conferences have been held and the subject matter fully discussed at great length, and it seems to me that the situation calls for definite, forthright action rather than any further theoretical, academic discussions.

Every right-thinking person realizes that juvenile delinquency is a problem with which the whole city should concern itself, every citizen, every organization, and more particularly should the parents of minors throughout the city take upon themselves the obligation which is essentially theirs, to eliminate insofar as it is possible the youth problem. It requires strict home supervision, and I am asking for the sincere and complete cooperation of every mother and father in the City of Newark, as well as every civic-minded organization, every child-caring agency, and every priest, rabbi and minister in the City of Newark to join with me in a city-wide effort to eliminate this problem in order that it may be kept at a minimum.

Laxity on the part of those responsible for the care and custody of minor children has undoubtedly contributed greatly to this unfortunate condition. Unfortunately, the home-life routine, in many instances, has been upset. Mother is on the "swing shift," or enjoying herself away from home very often as a result of personal income never dreamed of a few years ago. Daughter is supposed to be at home. All these conditions, whoever is at fault, place the problem to some extent at least in the hands of the police. The personal conduct of these children is many times the first step toward juvenile delinquency.

The success of the Curfew Ordinance will depend upon two things: enforcement and sanity of administration. I feel that a properly administered Curfew Ordinance is a direct step toward crime prevention. Policewomen have been found to be very effective in the enforcement of Curfew Ordinances.

In the careful study I have made of the Curfew Law in other large

cities, I find that the psychological effect of its enactment has, at least in some cities, reflected in the downward trend in juvenile delinquency figures, and this despite the fact that police in some instances did not make a single arrest for violation of the ordinance.

I have proposed the Curfew Ordinance because as yet no other course of action has been taken to cope with the problem we have in the City of Newark, and I doubt very much that there is another city or town in this county which is confronted with the problems that we have in Newark.

It has been suggested that there are presently laws on the statute books with which we could effectively cope with the problem in hand, and I have read and digested the laws with respect to juvenile delinquency, and in my opinion they do not and cannot effectively cope with the problem to the same extent that a curfew will.

Under the proposed ordinance the problem of adolescent girls out with soldiers will be taken care of because under the ordinance a juvenile cannot be abroad after ten o'clock in the evening unless accompanied either by its parent or the person having the care and custody of the minor. In other words, the adult with the minor must stand in "loco parentis."

Someone has offered the thought that it will be difficult to determine whether or not a child is under sixteen years of age. I think such instances will be relatively rare, and, of course, the ordinance will be enforced with the thought in mind that "reason shall rule."

I am not particularly impressed with the thought that those under sixteen years of age should be given

a chance to be heard on the subject of whether or not the curfew should be passed. Children should be guided, directed and reasoned with — in the home, and I am not impressed with the idea that the seasoned and experienced reasons of adults should be subordinated to the reasoning of minors.

It has also been suggested that the curfew might cause a disrespect for law. I have an abiding conviction in the fairness of American youngsters and I know that they, too, will appreciate that the curfew law is being enacted for their benefit and for their future welfare, and I place a great deal of confidence in the average American mother and father to explain the real purpose and benefit to be derived from this curfew ordinance.

I feel that the Curfew Ordinance will bring about a more widespread interest in the problems confronting juveniles in this city. It may, and I trust it shall, bring about a greater concerted effort on the part of everyone in the city to put forth a greater sense of responsibility for the young children of today. I am sure everyone will agree with me when I say that it has brought the culmination and fruition a problem that can no longer be discussed academically, but rather one which requires immediate action.

Mr. Mayor and members of the City Commission, I move for the adoption of the ordinance.

Commissioner Brady: Just a moment. Mr. Mayor, before you put the motion, I would just like to have a word to say. I don't think that there is anybody who appreciates more than I do the problems faced by Director Keenan. I also want to compliment him on that very fine set-up suggested in his statement today. I do feel, however,

that there were some very representative citizens that appeared before this body today. They offered cooperation.

I might say I was very much impressed by the young man, who, in my opinion, best expressed the youth viewpoint. We were all young ourselves, and I feel that he is in a better position today perhaps, to understand the modern problems of youth, more so than I am. These various organizations have offered to cooperate with the Director of Public Safety, and I am sure if the matter were laid over for another meeting, that probably they would agree with Director Keenan.

I am in accord with him that something should be done. I also appreciate the fact that there are today on the state statute books, laws that provide for problems such as presented by the juvenile delinquent. The fact that those laws did not bring about a solution should not, I don't believe, have any bearing up the head of the Department of Public Safety, who is charged with the responsibility of enforcing those various statutes and ordinances.

As I said in the first instance, I am in accord with his ideas, but I do not feel that after those people who took time out to come down here today, and present their views, that we could wait at least two more weeks. Every one of them offered to cooperate. I don't believe in any instance were there any representatives who indicated they were opposed to the ordinance in its entirety. Therefore I am going to ask, before the Mayor puts the motion, I am going to ask Director Keenan if he would not hold the matter in abeyance for two more weeks.

Commissioner Keenan: Mr. Brady and Acting Mayor Byrne, and mem-

bers of the City Commission, ladies and gentlemen, I feel that any postponement now to the ordinance would lose its effectiveness. The problem has been gone into thoroughly by all of the various agencies and official organizations charged in any degree with the responsibility of juveniles. As Director of Public Safety, I shoulder considerable responsibility. I said in my campaign in 1941 that I would be willing at any time to meet any issue four-square. The issue of juvenile delinquency confronts us today. There is something that must be done. Something must be done other than continuous conversation with regard to what we shall do, where the responsibility lies, and who is to do something about it. We are all in agreement as has been expressed by every speaker who appeared before this honorable body today, that primarily the duty rests upon the parents. It was a God-given responsibility upon the parents and yet we are confronted with the fact today that so many parents are not shouldering that God-given responsibility. They bring into the world these boys and girls and then God is supposed to protect them from then on or until they are able to get upon the street.

I have had various programs that has been put in effect. So those of you who are old enough, I invite you to my office now, or on any other occasion. I will show you prima facie evidence of the work that has been done along various lines, not with regard to the juveniles in particular, but in regard to the sexual activities — and I pride myself upon the results achieved by the Police Division since my inception as Director of Public Safety, and with the prostitution in particular. I have some two hundred pictures in my office, and that is not half of it. We cleaned up that sexual situation. We made a drive on abortion, and I am as proud to stand up

here as I am before any other body of men and women, and say to you men and women that I have received eight out of nine convictions in the abortion drive that I had in this town.

I say to you good citizens, sincere as you may be, you don't know all the score; but it is brought to our attention in the Police Department. It is brought to my attention primarily as Director of Public Safety. I am shirking no duty, nor am I hiding from any responsibility. I want the ordinance passed if it is possible to do so, by the City Commissioners this afternoon.

Delinquency was discussed. Nobody ever came in. Nobody raised their arms with regard to what should or should not be done. Sensing my duty, sensing my responsibility, seeing the conditions as I see them prowling around these streets at night, I feel that this ordinance, having been introduced today, up for second and final reading, should be passed. If the City Commissioners feel disposed to vote otherwise, that is each member's responsibility.

I am moving for the passage of this ordinance. And I say to you good men and women here this afternoon, all of you in the interest of real, good, decent, young Americanism, you don't hold any greater spot in that particular circle than do I; but I realize that in all due probability, that you may not realize what exists in this great town of ours. And I think I feel I possess as much civic pride as anyone. I see the need of this ordinance, and if I did not see the need for this ordinance, Jack Keenan would never have introduced it, regardless of the avalanche of criticism in my direction. But I feel it today, as never before, as a war time measure, conditions are such that this ordinance is necessary.

Commissioner Villani: Mr. Mayor, Acting Mayor, I am speaking on behalf of myself. I feel that this matter is a very important one. We have had some outstanding citizens come here today to express their views. I have a great deal of respect in our Probation Officer Murphy. He has come here, and he feels we should give it further consideration. I further feel that this matter is of such a major issue, that the Mayor should be here himself to pass his vote. After all, he is the presiding officer of this body, and he should be given consideration. For that reason I believe that this matter be put over for two weeks.

Commissioner Brady: I second the motion.

Acting Mayor Byrne: I would like to be heard, and say that I have a good deal of respect for the people who have come here, particularly Mr. Murphy, the Chief Probation Officer. On the other hand, I think this is a means to an end. While I am not entirely "sold" on the curfew, I don't think it would be abused under Director Keenan. I think he has done a fine job in the department, and I for one certainly want to back him up as far as I possibly can to restore order and proper conditions in the city.

Now, if there is such a motion by Director Keenan, if it is considered as such by the Commission, I will second Director Keenan's motion.

It has been regularly moved and seconded that the ordinance be passed on second reading. The Clerk will call the roll.

Commissioner Villani: Mr. Mayor, I don't think that you as the presiding officer could second a motion. You will have to vacate the chair.

(A general discussion takes place

by the commissioners out of the hearing of the reporter).

Acting Mayor Byrne: I think it has just been understood that Director Keenan is satisfied to a continuation of this hearing for an additional two weeks.

We will continue the hearing on this ordinance for two weeks from today, on September 22nd.

The Clerk will call the roll on the motion for the continuation of the hearing.

The City Clerk calls the roll:

Commissioner Brady: "Aye."

Commissioner Villani: "Aye."

Commissioner Keenan: I will vote "no." The other members of the Commission could out vote me if they want to.

Acting Mayor Byrne: "Aye."

The City Clerk: That is all on the ordinances, Mr. Mayor.

Acting Mayor Byrne: Resolutions.

Commissioner Villani: Pardon me, but before the resolutions come, I have here one letter which I forgot to bring up at the meeting this morning. I received this communication from the Irish-War Veterans, stating that they would like to have a convention for this year in Newark, and they are asking me to make an appropriation of \$500. I would like to go along with their request, because we went along with the other organizations, the Jewish War Veterans and the Disabled Veterans. However, I would like this as a matter of record, so that later on if I have to add this in my budget, you will know about it.

I just wanted to bring this to the attention of the Commissioners that I am granting this sum.

Acting Mayor Byrne: Resolutions.

The Board of Commissioners approved the following appropriations for bills, claims and payrolls:

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

The City Clerk presented An Ordinance regulating the presence of minors under the age of sixteen (16) years in public streets and other places, between certain hours, defining the duties of parents and others in care of minors, and providing for arrests and penalties for

violation thereof, and declared an emergency, and stated that today was the time fixed for a further hearing, a hearing having been held on September 8th, and continued to this date.

The Board then entered upon said hearing.

Mayor Murphy: This ordinance was before the City Commission two weeks ago, at a public hearing and was deferred until today. The ordinance is now again before the City Commission, and the public hearing is continued. Is there anybody who desires to be heard in opposition to the ordinance?

The following appeared and opposed adoption of the ordinance:

The following appeared and favored adoption of the ordinance:

Mr. Eli Gottlieb, Chairman, Youth Division, Community Councils of the City of New York, associate of Joseph J. Fiske, 32 Broad Street, Newark; Rev. B. H. Jackson, Pastor, 13th Avenue Presbyterian Church; Mr. Milton Hendler, as an individual and

Mr. T. Hubert McCauley, as an individual.

Commissioner Keenan: Mr. Mayor and members of the City Commission, ladies and gentlemen. At the last Commission meeting, some two weeks ago, I issued a statement wherein I had laid out a program with regard to the proposed mechanics of the curfew ordinance; and at the conference held in my office on Wednesday at noon last, or on September 16th, after welcoming those who attended — some forty representing various activities in the youth organizations—I read to them this statement. It appears to me that the real fundamentals of the ordinance are not understood by the opponents of the ordinance, for the reason if it were understood, they will immediately realize that some of the things they offer in argument against the curfew ordinance are things laid out in the program for me to carry out, in a manner in which we hope to have coordination of the various agencies.

We have a problem with which we are more than familiar — the misdirected energy of teen-age children. It would be trite to say the problem is essentially a parental one — we know it is — somewhere along the line probably due to war-time conditions, some mothers and fathers either cannot or will not meet their responsibilities. As a consequence, teen-age youngsters are abroad day and night, most of them roaming about, literally flinging themselves at men in uniform.

Ordinarily, the juvenile problem is not one for the police, but as Director of Public Safety I can no longer overlook that which is so obviously a menace to the peace, well-being and moral welfare of the City in general.

I know that much has been done

by the organizations represented here today. Your efforts have been most commendable. The fact remains, however, that such programs have failed to attract that group of youngsters who nightly infest public places, parks, railroad stations, places of amusement and other public places until the early hours of the morning. It is with that group that I am principally concerned. During the war emergency with which we are now confronted, I think you will agree with me when I say that as Director of Public Safety I not only have a right but the duty to take steps to eliminate, or at least minimize, the unnecessary presence of teen-age children in public places in this city, at least during the night hours.

From discussions had at the last City Commission meeting on the curfew ordinance, I came to the conclusion that many were totally unfamiliar with the purpose and the general administration of such an ordinance. There was no intent on my part to effectuate wholesale arrests of children, nor, for that matter, of parents. I set up for the first time in the history of the Newark Police Department a Juvenile Bureau, the personnel of which consists of acting policewomen under the direct command of a Sergeant Policewoman. It was the intention to have these acting policewomen placed on active patrol duty in the public places throughout the city and question youngsters who were abroad after ten o'clock at night, who were not with their parents or some person in loco parentis. It was then the plan to get the names and addresses of such children, and upon a second violation of the ordinance, to contact the parents and try, wherever possible, to educate the parents as to the necessity of better parental control and to seek their cooperation. I still think that such an ordinance, properly administered, would create a wholesome effect in

conjunction with the program I am about to set up.

In order to effectuate an all-out program, I have called together this afternoon persons from almost all walks of life and almost every line of endeavor, to cooperate with me in a program to be put into effect within the next few days, if possible, so as to meet and cope with this emergency.

In order to be effective, this program must reach out to every child, from elementary to high and prep school. It must of necessity call for something attractive, something interesting to the children. It must "give them something to do in their spare time." It must, in addition thereto, educate the children into a realization of their obligation as Americans. Offered to the children of the City as their patriotic effort in this all-out war, it will, I am sure, be very effective.

What is the program? Well, in short, I propose the following: The various people here this afternoon are to determine within the next five days what he or she and his or her organization or business can contribute to the young people of the city. In other words, what does the motion picture industry have to offer in this problem? What does the newspaper have to offer? What does the Board of Education have to offer? What does the Welfare Council have to offer? What does the radio have to offer? What do the various churches throughout the City have to offer in this program? What do the business men of the City have to offer?

For example: The motion picture industry can offer a series of programs or pictures to be run at certain stated intervals for children of, say, eight to thirteen years, and another series of programs for chil-

dren from thirteen to sixteen — zen who desires to be heard on this patriotic pictures, pictures which will have the effect of lifting the morale of children, pictures which cater to their innate sense of responsibility, at a time like this, and at the same time eliminating from the screens of the motion picture houses in the City of Newark every picture which has even a suggestion of vice, immorality, crime and their allied unfortunate sequences. The radio can offer a series of programs for children, amateur plays and amateur radio programs. It can advertise this program. It can, in conjunction with the motion picture industry work out programs which will be helpful and mentally healthful to children of all ages.

The newspapers can run a series of articles, advertising, if you will, the program and catering to children. The school system I know has already inaugurated many features catering to the teen-age youngsters. It can, for example, offer the athletic facilities under the direction of its physical instructors throughout the city — hand ball, volley ball, basketball and many other activities to which boys and girls might accommodate themselves. The school buildings in the City can be used for programs in that direction.

The public parks in the city can be utilized. The Essex County Park Commission, of which Mr. Wallace is secretary, can help in the utilization of its present facilities. The county parks throughout the city would be made available in cooperation with the Board of Education on such programs, and the aid of men and women enlisted to supervise such programs.

The Y.M.C.A., the Y.W.C.A., the Y.M.H.A. and the Y.W.H.A., whose facilities, I know, are very much strained at the present time, can certainly offer many facilities or sug-

gestions in connection with this problem.

Your child-caring agencies, the Catholic Charities, Welfare Agency, and other organizations interested in the care and welfare of children generally can coordinate their programs so as to aid immensely in this problem.

I have asked that a report be given within the next five days by every individual present as to what he or his organization has to offer the youth of this city in this all-out program. I have enumerated a few of the thoughts which I think will be effective.

Mrs. Griffiths, Director of the Music Foundation, can, and I am sure, contribute very richly to such a program. We can cater to the physical and mental desires of these children. We can develop in them many fine qualities which are inherently theirs, but for the opportunity to bring them forth.

When these reports are given to me we can determine how the various facilities throughout the entire city can be coordinated into an all-out effort to supply the apparent void represented by the unnecessary presence of many children on the streets during the evening hours.

Finally, in order to get into this program in one activity or another the group of children that have raised the police problem, the personnel of the new Juvenile Bureau in the Police Department will coordinate its efforts with this group by securing the name and address of children abroad at night for no reason whatsoever, and get those children into one or more of the activities which this group will formulate.

For those who are fearful of a

curfew ordinance, let me say to you that I am utterly sincere in the thought that a Curfew Ordinance, in addition to this program, the technique of which will be worked out upon the receipt of these reports, will, I am sure, with its sensible and reasonable enforcement, bring about a complete alleviation of these conditions with which we are now faced. It must be remembered that the purpose of this ordinance is to prevent juvenile delinquency. The present laws apply only to children after they have become delinquents, and in like matter, the present state laws apply only to parents, who have become neglectful of their children. The curfew law goes beyond that point as you can readily appreciate, and will give the newly created Juvenile Bureau in the Police Department an excellent foundation for its work.

Finally, I want it completely understood that it is my thought that this program will do more than rehabilitate juvenile delinquents. It will, in fact, prevent children from becoming delinquent, and after all, I think you will agree with me when I say "an ounce of prevention is worth a pound of cure."

Now, I think, to those of you who appear as opponents of the measure, it is clearly understood that we are endeavoring to coordinate the activities of these various activities in the youth problem. Some of the conferences I have been attending — as far back as eight, ten months ago, it was plainly stated that primarily it was plain neglect; but as I said on the afternoon of Thursday last, nothing was said by any of them wherein juvenile delinquency could be kept to a minimum. Through this program, in the formation of a juvenile bureau and in the enforcement of the ordinance, we will seek — and I am fairly truthful in saying we are hoping we will receive the cooperation of all of the various agencies.

Mayor Murphy: Do any of the other Commissioners have anything to say?

Commissioner Brady: Mr. Mayor, before the vote is recorded, I would like to make a statement. I realize the difficult problem that Director Keenan has. He has arranged several conferences and has invited the welfare organizations and other agencies to attend. I am satisfied that he has exhausted every possible avenue and has done every possible thing that he could do himself before he decided upon introducing this curfew ordinance.

I am sure, and I know Director Keenan many years, that he as a father would not introduce something that might be detrimental to the children of Newark. I know he has made the statement that the children of Newark are not bad, and I am still of the opinion that he believes that. However, he is charged with a responsibility. He is the Director of the Department of Public Safety of the City of Newark, and he is using this curfew as I understand it, as a last resort in order to bring about a lawful condition amongst certain juveniles in the City of Newark.

Now, I gave the matter very thoughtful consideration. I have listened to the discussions of the opponents and the proponents of the measure, and while there are some doubts in my mind with respect to some of the ideas presented, I feel that Director Keenan would be one of the first ones to introduce a measure to repeal this ordinance if it is found unworkable. It has been done where matters affecting the welfare of the community were found unworkable that the law would be repealed; and the same would be done in this instance. I know that Director Keenan is going to carry it out in a manner not to

embarrass anyone. I know he is a father, and I know he does not want to embarrass anyone, and in particular he does not want the children of any other citizen embarrassed. Therefore, I feel that this Commission should support it, and if Director Keenan moves the ordinance, I will be very happy to second it.

Mayor Murphy: Well, I think that Commissioner Keenan is going to move the ordinance — is that right?

Commissioner Keenan: Up to this point, yes. I move its adoption.

Commissioner Villani: I second the motion.

Mayor Murphy: Before the Commission votes on the ordinance, I would like to say that I believe myself that while there has been a lot of criticism with reference to the effect of the curfew on the youth of our city during the war times, and especially our young girls, I do feel even in the face of the opposition, that Director Keenan should have that opportunity to put the curfew in effect. It is a temporary measure. I, for one, certainly am opposed to trying to regulate the freedom and the rights of our youth as much as possible, but certainly in these war times with what we have been faced with, I think that he should be given that opportunity. As Commissioner Brady has already said, if we find that the ordinance needs amendment of any kind, I have every confidence in the world that Director Keenan will be willing and glad to recommend a change. It does appear to me, without any doubt, that his plan is one of working in cooperation with all our social organizations in the City of Newark.

Is there any other Commissioner who desires to say anything at this time?

Commissioner Villani: I second that motion.

Mayor Murphy: The ordinance is up on second reading before the City Commission.

No one else appearing, Commissioner Keenan moved that the hearing be closed.

The motion was declared adopted by the following votes:

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

The ordinance having been read three times was then declared to be upon its third and final passage.

(No objectors).

Mr. A. Nathan Cowen: If it please the Commissioners I am appearing here as a matter of formality. As I understand it, there is a question as to whether or not I must appear before taking this matter up on a writ of certiorari before the Supreme Court. Back in 1941, a Mr. Max Green made an application before the Zoning Board for permission to erect a rag storage plant at 31 Lewis Street, Newark.

I just want to bring up one point, gentlemen, and that is this: Under the Zoning Ordinance, the applicant has 30 days, under the law, to file a writ; and my time is short now, in order to file that writ. In the last case, in 1941, the Supreme Court decided then, and this I was told by my predecessor in this case, that they refused to entertain the hearing because they failed to present the matter to the City Commission.

Commissioner Villani: This Board has no right to hear any Board of Adjustment matter except to concur in their recommendations. If your

application is refused, you have your rights before the Court, and not here.

Mr. A. Nathan Cowen: Is that your ruling?

Commissioner Villani: Yes.

Mr. A. Nathan Cowen: Then that serves my purpose.

Commissioner Villani: May I bring to the attention of the Board of Commissioners that the campaign of the United War and Community Chest started yesterday, October 19, 1943. It is my hope and the hope of all City Commissioners that the city employees of the people of Newark, will give their wholehearted supported to this cause, because it covers all 60 of our home front agencies, plus 17 war fund agencies. And we urge everyone to give us their wholehearted cooperation.

Is there any other matter to be brought up at this time before the Board of Commissioners?

City Clerk: That is all, Mr. Mayor.

Commissioner Brady: I move we adjourn.

Commissioner Villani: Before we adjourn, is there anyone else who desires to appear before the Board of Commissioners?

(No response).

Acting Mayor Villani: Then I will entertain a motion to adjourn.

Commissioner Brady: I so move.

Commissioner Keenan: I second it.

Commissioner Villani: The Clerk will call the roll.

Yeas: Commissioners Brady, Keenan, Villani.

**Newark, N. J., November 22, 1943**

A Special Meeting of the Board of Commissioners of The City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 2:00 P. M., Eastern War Time.

Mayor Murphy: The Special Meeting will come to order. The Clerk will call the roll.

Present: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Mayor Murphy: The Clerk will now read the communication stating the purpose of this meeting.

The City Clerk then read the following communication as the call for the meeting:

DEPT. OF PUBLIC WORKS

CITY HALL

NEWARK, N. J.

November 18, 1943.

Mr. Harry S. Reichenstein,  
City Clerk,  
City Hall,  
Newark, New Jersey.

Dear Mr. Reichenstein:

Director Byrne has requested that Mayor Murphy call a special meeting of the City Commission, and the Mayor has acquiesced to his request.

I therefore would ask you to as-

semble the City Commission at the Council Chamber at 2:00 P. M., Monday, November 22, 1943, to dispose of matters pertaining to the Department of Public Works.

Yours very truly,

T. S. MILLER, JR.

Deputy Director of Public Works.

Ordered filed.

City Clerk: This is the time and this is the place set for the meeting. I have for the first order of business, a communication dated November 19th, 1943, over the signature of Raymond Schroeder, Corporation Counsel of The City of Newark.

Commissioner Byrne: May I say, Mr. Mayor and Commissioners . . . before you read that, Mr. Clerk . . . that I requested this meeting because the Corporation Counsel, Mr. Schroeder, visited me during my illness and told me of his regret, but insisted that he would have to resign approximately December 15th. I tried to get him to reconsider it, but I was not successful. I know it is a great loss to the city. Ray Schroeder has been a very able counsel, he has done a lot of good work for the city, and he is a fine fellow.

Then the next thing in line was to consider who we could put in his place, and after the resignation is read of Mr. Schroeder, you will have a resolution read for the appointment of Mr. Philip Schotland as Corporation Counsel. I hope you all know that Mr. Schotland is of a different political faith than I am and some of the others on the com-

mission here; but it is nice to see that we recognize ability, and the emotional value and qualities of a good counselor. And it gives me great pleasure, and I think this procedure is authorized, to see that that resolution is presented after the resignation of Mr. Schroeder. I do hope it will come through. I think it is meritorious, and a promotion well deserved.

The City Clerk then read the following communication:

THE CITY OF NEWARK  
NEW JERSEY  
LAW DEPARTMENT  
CITY HALL

November 19, 1943.

Honorable Joseph M. Byrne, Jr.  
Director, Dept. of Public Works,  
City Hall,  
Newark, New Jersey.

My dear Director Byrne:

In confirmation of our recent personal discussion, I herewith submit my resignation as Corporation Counsel of The City of Newark, to become effective as of December 15th, 1943.

Very truly yours,

RAYMOND SCHROEDER

Commissioner Brady: I move that the resignation be accepted, Mr. Mayor, with regret, by the City.

Mayor Murphy: I don't think the City Commission has to act on it, does it?

Commissioner Byrne: I think it would be fine if it would.

Mayor Murphy: All right, then.

Commissioner Brady: I would like to make the motion anyway, Mr. Mayor, that it be accepted with regret by the City of Newark, and that we concur with the very fine commendation expressed by Commissioner Byrne who is in charge of that Department. I want to say that in my observation of Mr. Schroeder, as City Counsel, he conducted his office on a very high plane. I believe he gave some very fine legal decisions; and if I may say it, he was the epitome of courtesy, and always acted the part of a perfect gentleman. I think that the city gets the loss. However, I might say that a very important entity — and I might even say a very important utility of the State — will be the gainer.

Mayor Murphy: On this motion, I would like to say that I quite concur with what Commissioner Brady said. In fact, I think Commissioner Byrne will remember that when the conference was held after the last election, concerning the office of Corporation Counsel, I proposed the name of Thomas Parsonnet for that office; but when he proposed Ray Schroeder, I gave way to Ray Schroeder. I realized that he was a man who was well respected and who had that kind of ability that would make one feel proud to know him. I know that he is one of the many lawyers I have not been able to agree with; but he is that kind of a man who has ability and would be a credit to any municipality.

May I say also, while I am on this point, that besides signing the resolution appointing Philip Schotland to the position of Corporation Counsel, I want to also congratulate him. There again the City will have a man who has established a reputation as a lawyer here in the City of Newark. And I am sure that he

too will be a credit to this great municipality.

Commissioner Keenan: Well, it is with reluctance that I support even the request of Ray Schroeder for his resignation, reluctance in the sense that we, the Commissioners of the City of Newark and the citizens in general, are losing in Ray the services of an extremely well able lawyer; but of course if it be Ray's wishes, we wish him God-speed and good luck in his new field of endeavor. And with the knowledge Ray possesses, and I think I speak the sentiments of the entire Commission, I say that he will make good.

In filling the position by the appointment of Phil Schotland, I would like to say on that particular point that it is with a great deal of pride and personal satisfaction that I support the resolution in appointing one so able as is Phil Schotland. I have the honor of having enjoyed Phil's friendship for some 35 or 36 years, and I always respected him, not alone as one of Newark's real and decent outstanding citizens, but learned to know him as one of the able members of the bar. And I am proud, inasmuch as Ray Schroeder has taken that step, proud of the privilege to support, with my signature, a resolution appointing, to fill the vacancy, Philip J. Schotland.

Commissioner Villani: Mr. Mayor and members of the Commission. I gave all you Democrats something to say in advance because Ray Schroeder is a Republican, and I wanted to know how it feels to have four Democrats talking about a good Republican.

I join with you Commissioners in expressing my regrets that Ray is leaving; but after all, Ray is leaving for perhaps a better position with

more money, and he is set for life; whereas if you are in public office, you are here only temporarily, and he has to get out sometime. So I think Ray is using very, very good judgment. But I regret sincerely that he is leaving us. I know he has been a fine lawyer as a lawyer. Yet, I think I could vouch for him more than you Commissioners when I say he is an outstanding member of the bar. And Ray, I wish you good luck and, God speed in your new endeavor, and I hope some day you will head the staff of the lawyers in the Public Service — and make me your assistant, remember that.

Now in regard to the man who is going to take his place, of course no one could feel better than I do about the appointment of Mr. Schotland to head the Law Department of The City of Newark. You know, life is funny. I could just remember back in 1920 when I went to his office and asked him if he would not let me serve as his clerk. And here it is now 23 year later that I am in a position to have put Mr. Schotland, the man who gave me my start, in a position to be Corporation Counsel of the City of Newark.

Of course I have always been with Mr. Schotland. I have clerked with him and I served my practice with him, and when I passed, I practised in his office. There is very little I could say about his qualities as a lawyer, because it is a well known fact throughout the bar of the State of New Jersey that he is one of the outstanding members of the bar that we have or will have for many years to come. I am sure that he will do credit to our Law Department and the City of Newark in serving as Corporation Counsel. And I am glad to join with Director Byrne and the other Commissioners in putting him in as

Corporation Counsel of The City of Newark.

Commissioner Brady: Mr. Mayor, before we take the roll call, I would also like to express to the Commission and to the public in general, that my signature attached to the resolution will speak for itself insofar as Mr. Schotland is concerned. I was going to ask you, Mr. Mayor, while I am talking, if you will extend the courtesy of a reply to all the nice things that were said about him, to our outgoing Corporation Counsel.

Mr. Raymond Schroeder: Thank you, Commissioner. I was going to ask you, Mr. Mayor and Commissioners, if I might say a word, because I would feel personally very amiss if I did not acknowledge some very few words your very gracious and very generous remarks.

I know as you know, that Newark is a great City. It has a great past, and it is living in trying times now. I am confident that Newark will be a greater city than Newark of the past has been, and you now are forging the sinews of a public administrative foundation which will make Newark the great city of the future.

I have enjoyed working with you gentlemen on the problems of the City's administration, be they large or small. I am afraid that you have perhaps not always been satisfied with our decisions, but I am convinced that you were sure that our decisions were based on the facts and on the law as we honestly and sincerely saw them. We were endeavoring to do a good job, and I know whatever the Law Department work measured up to, it has been in a large measure due to the very fine and very loyal devoted services that I think I could say I have had from everybody on the

staff. I don't want to mention their names — you know the gentlemen. They have been unusually close, in a personal way, with me, and I think I could say without fear of contradiction that the Law Department of today, of this city, in most respects is perhaps the best equipped and the most intelligent, or rather, the best thought of Law Department that the city has had in many years.

It has been a great pleasure, as I have said, to work with you gentlemen. I really believe and feel that in going with the Public Service Corporation, I still will be engaged in public service. I want you to feel, although I am not actively with the city, after I am with the company, my door will always be open, and I shall be very happy and very willing to assist you in any way with respect to city problems.

There is a lot more I might say, but I don't want to prolong your meeting. I appreciate your indulgence as to myself, and I congratulate you upon the wisdom of your choice in Mr. Schotland. I think, as Commissioner Byrne has said, it is a very salutary thing, a very healthy thing to find that you men, all of you, recognize ability, recognize a job well done, such as Phil Schotland has done. I think it is one of the happiest moments of my life to witness the adoption by you of the resolution naming Phil Schotland. I have one reservation on that, and he knows it; and that is that I have the honor and the privilege of administering to him the oath of office on December 15th next. Thank you very much.

City Clerk: The motion before the Commission is that the resignation of Raymond Schroeder, effective as of December 15th, 1943, be accepted with regret.

Mayor Murphy: You heard the motion. The Clerk will call the roll.

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

City Clerk: Director Byrne has presented the following resolution:

RESOLVED, By the Board of Commissioners of The City of Newark, that Philip J. Schotland be and he is hereby appointed Corporation Counsel of The City of Newark, for a term commencing December 15th, 1943, and terminating May 15th, 1945, at the annual salary of \$11,000.00, payable semi-monthly, and the City Clerk be and he is hereby directed to place his name on the payroll.

Mayor Murphy: You heard the reading of the resolution presented by Commissioner Byrne. A motion is in order.

Commissioner Keenan: I move the adoption.

Commissioner Villani: I second it.

Mayor Murphy: The Clerk will call the roll.

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

Mayor Murphy: Mr. Schotland, did you wish to speak?

Mr. Philip J. Schotland: Mr. Mayor and Commissioners, I appreciate the privilege of a word. I want to say to you that the happiest years of my practice have been the last two and a half years in the City Hall here with the Law Department, and with my very good friend Raymond Schroeder, as the Corporation Counsel of the City. The experience has been wonderful. The Corporation

Counsel and all the members of the Law Department have been so fine that we have all become sincere friends, consulting each other, arguing out with each other different ideas. The first official act, after being sworn in on the 15th of December, will be, and I will take great pleasure in presenting it to you, a resolution reappointing the entire staff as it exists today, with the addition in my place of Mr. Astley. You have probably seen in the newspapers that I favored appointing him, with your approval, as Assistant Corporation Counsel, to take my place. And I could assure you that I feel very grateful to you for the confidence reposed in me, and I will do my utmost to perform the duties of my office to the best of my ability, and try to be a credit to my sponsors, and try to make Director Byrne feel that that is how I want to prove my gratitude to him for recommending my advancement. Thank you.

City Clerk: Director Byrne, is there any further business pertaining to the affairs of the Department of Public Works?

Commissioner Byrne: No. I accordingly request the Mayor that the meeting be adjourned.

Commissioner Villani: I second the motion.

Mayor Murphy: The Clerk will call the roll.

Yeas: Commissioners Brady, Byrne, Keenan, Villani, Mayor Murphy.

The resolution was declared adopted by the following votes:

Yeas: Commissioners Brady, Keenan, Villani, Mayor Murphy.

Mayor Murphy: I want to make a statement. I am sending a letter to the Commissioner of Local Government Mr. Darby, which reads as follows:

"With reference to your departmental letter number 10, November 1943, addressed to all municipal clerks and registered municipal accountants — re: Capital Post War Budgets, — I am sending you herewith Capital Post War Budgets as prepared by the various City Commissioners.

"I do not feel that these budgets can be construed as definite commitments, and it is quite impossible in most instances to reach a final conclusion as to amounts which will be provided from annual appropriations and the amounts which will be provided through bond issues, and also those that we would be committed to, provided the municipality received a percentage of state or government aid.

"The grand total of contemplated projects by departments is as follows:

"Department of Public Works, \$14,948,000 Department of Revenue and Finance, \$10,871,000. Department of Public Safety, \$1,188,600. Department of Public Affairs, \$9,710,000. Department of Parks and Public Property, \$5,199,540. Or a total of \$41,917,140."

That is what is being submitted to the Local Government Commissioner. However, no commitments on the part of the City of Newark are being made. It is only to let him know that we are preparing this in line with the post-war development

of the city of Newark.

City Clerk: That is all on the Clerk's desk, Mr. Mayor.

Commissioner Villani: I move we adjourn.

Mayor Murphy: I just want to report to the Commission — I think it is well, before we put the motion to adjourn — in reference to the tax sale that is now going on. Unfortunately, a number of properties owned by churches and charitable organizations have become involved. There is a balance in taxes due over a long period of time, and they have been included in the tax sale.

Application has been made to Justice Parker to have him modify his order so that these properties would not be put in the tax sale. The taxes due on arrearages on these properties are due to the fact that they acquired title after the taxing period.

Two years ago I endeavored to have legislation passed which would allow the city of Newark to cancel these taxes.

I do hope that if any of them are in this sale, that none of those purchasing tax title lien certificates would purchase any of the certificates against these institutions. Some of the institutions have been in during the last few days, and they have paid up their taxes. They personally felt that these taxes should not have been paid to the city of Newark, because of the fact that when they acquired title to these properties, everything was paid to date; but to be in compliance with the law, it was necessary to charge them for that year's taxes, the year in which they had purchased the properties.

I hope that we will be able, with the support of this Commission to

have legislation passed by the legislature which will not only give the city of Newark, but many other municipalities throughout this state, the right to cancel these taxes against these exempt institutions in these different municipalities in this state. I intend to ask the City Commissioners for their support and to instruct the Law Department to prepare the necessary legislation to be presented at the next session of the legislature through the assembly or through the senator in this particular county.

I think that it is unfortunate that this was not taken care of years ago; but I do think particularly in view of the publicity given to it, we should follow through. These organizations should not be charged for these taxes.

So, I am hopeful that the Commissioners here will support my move to try to have this legislature take some action on it.

Commissioner Villani: Mr. Mayor, you could have my wholehearted support on that; and I will cooperate with you in any way to see that proper legislation is passed in order to bring relief to those institutions.

Mayor Murphy: I am not in a position at this time to report in detail on the tax sales, but everything is moving along very encouragingly. Probably at the next meeting of the Commission, I will have a more detailed report as to the sales to be held on the 28th of December. It looks very encouraging. I think those who have felt that the Commission of Revenue and Finance has held out probably hundreds of pieces of property — out of the sale — have been somewhat disappointed. I think the records will show that. The total amounts will indicate that. And I am sure that there will have to be no apologies made on my part

for any of the people who are in the sale. They have been in it before; and those who have failed to comply with the law, are now again being included in it.

There have been adjustments made by those who have paid on their back taxes, and that has been very helpful to a number of the people who have been on the budget plan. These people have responded very generously, and they feel that the city has been very good under the policy of giving to them credit on this year's current taxes, on the payments made this year on delinquent taxes.

A vast majority of these people are continuing on the five year plan which has been set up, by paying on the old rate that they have been paying — on the monthly budget plan. So that they will get out of debt in the same period of time as if there was no upset in the policy established by this department through the approval of the law department.

So I could just tentatively report that everything in connection with the tax sale is moving along all right.

Commissioner Brady: Mr. Mayor, I want to let you know that I am heartily in favor of your efforts to have legislation passed for the purpose you have indicated, and when you are ready you could depend on my support as a member of this Commission.

Commissioner Keenan: I agree with you on this.

Commissioner Brady: I also want to commend you on the plan you set up for the poor unfortunate taxpayer who, during the depression years, was unable to meet his obligations. I think that your efforts, rather than

being criticized, should be commended.

I am very much interested in the people of the city of Newark who have met with misfortune and who have not been able to meet their obligations. I think that you should be commended, and I say it as a citizen of Newark since birth. I commend you not only as a member of the Commission, but as a taxpayer and as a citizen of Newark.

Mayor Murphy: I thought it important for the Commissioners to know that, because I think you should know that the gentleman who has appeared before the Com-

mission a number of times — he has not been here for the past few weeks — has not been able to accomplish his purpose at all.

Commissioner Villani: I move we adjourn.

Commissioner Brady: I second the motion.

Mayor Murphy: The Clerk will call the roll.

Yeas: Commissioners Brady, Keenan, Villani, Mayor Murphy.

VINCENT J. MURPHY

Director of Revenue &amp; Finance

Ordered Filed.

Acting Mayor Byrne: Before we go any further with this meeting I think it is only fitting that the Commissioners—and those present in the audience today should also be in accord—that we say goodbye regretfully to Mr. Raymond Schroeder who leaves us today. He is going into further endeavor in the legal line. We thank him for his very loyal and efficient services to the City of Newark. I personally thank him for the help he has given me in the conduct of the meetings and in the Law Department, and I feel that every Commissioner here agrees with me. And Ray, we wish you good luck and God speed and come back often to see us.

Mr. Raymond Schroeder: Thank you.

City Clerk: Mr. Mayor, for the record, there were ten abatement resolutions introduced this morning. They would have the required number of signatures for passage if the attendance here were three; but since there are four in attendance, three signatures are required. They could not pass at this time; but by motion of the Board of Commissioners passed in conference, these matters were deferred for two weeks, with the reservation that the Commission take it up at a private conference, and if they did not agree on it in two weeks, that they should be further deferred. And the vote was Director Brady and Director Villani for passage originally, and then the vote for deferment was Director Villani and Director Keenan for deferment, and Director Brady opposed to the deferment.

That is just for the record.

Acting Mayor Byrne: I would like to be recorded as asking that they be deferred for two weeks.

Commissioner Brady: And I want to go on record, Mr. Mayor, that I am not objecting to the deferment of the compromises for two weeks, with one exception. I want it noted on the record that I am opposed, and most strenuously opposed to deferring the matter where they are putting up a war plant at 51 First Street, or 52 First Street, where a building will go into ratables of the City of Newark. I am opposed to stopping that war work at this time. I wanted that noted on the record.

Acting Mayor Byrne: All right.

City Clerk: I present to the Board of Commissioners of the City of Newark audit for the year 1942, as presented by the Mayor to my office, and to him by Puder and Puder, certified public accountants for the City.

Commissioner Villani: Mr. Mayor, I move that the City Clerk comply with the statute of the State of New Jersey and advertise the report according to law.

The motion was declared adopted by the following votes:

Yeas: Commissioners Byrne, Brady, Keenan and Villani.

The City Clerk is instructed to get copies and distribute them to the Board of Commissioners.

The following communication was received and read:

LAW DEPARTMENT  
CITY HALL

December 15, 1943

To the Board of Commissioners  
of the City of Newark.  
Gentlemen:

By virtue of the authority of the

statutes of New Jersey relating to Law Departments in Cities of the first class, and the several ordinances of the City of Newark pertaining thereto, I, the undersigned, Corporation Counsel of The City of Newark, do, subject to the consent and concurrence of your Board, appoint:

Thomas L. Parsonnet, Assistant Corporation Counsel, \$7,500; Louis A. Fast, Assistant Corporation Counsel, \$7,000; Charles Gansler, Assistant Corporation Counsel, \$6,500; George B. Astley, Assistant Corporation Counsel, \$7,000; Nicholas Albano, Special Assistant Corporation Counsel, in Charge of Foreclosures, \$5,000; Louis S. Cohen, Special Assistant Corporation Counsel, Department of Foreclosures, \$3,500.

Such appointments, in accordance with the ordinances of the City of Newark, in such case made and provided, to take effect at once.

Yours respectfully,

Philip J. Schotland,  
Corporation Counsel.

Ordered filed.

May we have them sworn in at this time, Mr. Mayor? The resolution concurred has been adopted.

Acting Mayor Byrne: All right, we ask the gentlemen to come forward now, and be sworn in.

The resolution was declared adopted by the following votes:

Yeas: Commissioners Byrne, Keenan, and Villani.

City Clerk: We have the application of Emil Attanasio for the construction of a commercial garage for the storage of trucks in a first

industrial district, premises 170 to 174 Malvern Street.

WHEREAS: On an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Emil Attanasio, owner, for the construction of a commercial garage for the storage of trucks in a first industrial district; premises 170 to 174 Malvern Street; on condition that said garage is constructed in accordance with the plans and specifications approved by the Board of Adjustment;

AND the matter having been considered by this Board;

IT IS RESOLVED: By the Board of Commissioners of the City of Newark that the said recommendations of the Board of Adjustment be and the same are hereby approved.

Acting Mayor Byrne: Is there any one who desires to be heard on this application? (No response).

Commissioner Brady: I move the adoption.

Acting Mayor Byrne: The Clerk will call the roll.

Yeas: Commissioners Byrne, Brady, Keenan and Villani.

City Clerk: The application of Arman Saraydar, owner, for the conversion of a public garage into a warehouse for the storage and distribution of grocery and canned goods and the storage of 15 delivery trucks in a third residence district, premises 277-285 Garside Street.

Commissioner Byrne: Are there any objectors.

Those who appeared and objected included, George Gannell, 260 Garside street; Philomena Rizzolo, 264 Garside street. The former presented a petition against the application. Speaking for the application were Abraham Harkavy, counsel for the owner; Martin Flusser, Mr. Ferri, Joseph Good, Joel Schlesinger, and Mr. Shraydar. Corporation Counsel Schotland, Acting Mayor Byrne, and Directors Villani, Keenan, and Brady also participated. Director Brady moved that the application be laid over for two weeks. It was seconded by Director Byrne. Director Keenan and Villani opposed the motion, Director Brady voted "aye" and Director Byrne was recorded as not voting.

Acting Mayor Byrne: Do I understand that the application, or the recommendation of the Zoning Board is what?

Mr. Schotland: Is lost, because it has not met with the approval of the City Commission. They are in the position where they have been unable to procure a legal waiver of the provisions of the Zoning Ordinance to permit them to conduct the business in the premises; and they cannot do it.

Commissioner Brady: May I ask the corporation counsel a question? Does that mean that because this present commission, which does not constitute a majority so far as the vote is concerned does that mean that this matter cannot come up again at some subsequent hearing?

Commissioner Villani: No, it cannot, because we did not vote on any adjournment of the matter. We disposed of it today; and having had a quorum, this quorum prevails.

Commissioner Brady: I still asked

the corporation counsel a question.

Naye: Commissioner Brady.

Commissioner Brady: On that resolution, Mr. Mayor, I am voting "no." And I would like to justify my reason for so voting.

I am reliably informed that a member of the Planning Board advocated the employment of Mr. Villanueva as chief planner, and further proposed that he be assisted by technical men permanently employed by the City. If this is true, I am of the opinion it would be unwise and wasteful of Newark funds to engage an out of the state resident, when we have a man of Mr. Villanueva's ability and reputation who I am sure would be willing to accept the services of our city technicians, therefore saving the expense of outside engineers.

We have in our classified service structural engineers, college graduates, who have served the city of Newark for the past 25 years. They receive \$4,100 per year. I believe it would be unfair to these men if we were to pay \$6,000 a year to a secretary or any other technical ex-

pert engaged by the planning board, and then expect our men to do the work for \$4,100. Why not assign them at the above figure?

I have read the report submitted by the last planning commission in 1915 covering a period up to 1950. Many recommendations suggested by that Board could be considered today, although it may take several years to accomplish the desired results. I would like to know what additional information, ideas or plans which have not been suggested, recommended or discussed in the above report, would be submitted in the new plan; and could the additional information, ideas or plans be supplied by the city's technical experts without the assistance of an out of state firm?

That is the reason why I am voting "no," on the resolution, Mr. Mayor.

Mayor Murphy: I would like to state as to that, Commissioner Brady, that it was Mr. Bigelow who had proposed Mr. .... I have just forgotten the gentleman's name — Mr. Villanueva; and after a thorough discussion by the planning board — and I happened to be present at the conference at the time, or at the meeting, rather — after going into the records and the backgrounds of all the proposals, or all of the planners who were considered by the planning board, Mr. Bigelow voted favorably for the hiring of the Bartholomew Company. So that the vote of the planning board at its meeting was unanimous. I just wanted to clear that up for the record.

Commissioner Brady: I received my information, Mr. Mayor, from Mr. Bigelow. I have a letter written by Mr. Bigelow dated December 4th, 1943. I will read an excerpt from the letter sent to me from Pinehurst

North Carolina.

"At the planning board meeting the day before, . . ." that was the day before our meeting, Mr. Mayor, when we discussed the recommendation of the planning board. "At the planning board meeting the day before, I had advocated the employment of Mr. Villanueva as our chief planner, and proposed that he be assisted by some of the talented men already in the employ of the city. However, no one agreed with me, and I was forced to drop the idea. It is my opinion it would be unwise to engage Mr. Bartholomew and his associates. We can do a far better job with half of the sum of money asked for."

Now, he further states, "Mr. Bartholomew worked in my office. He was later on the payroll of the 1912 planning board as engineer; but it was Bigelow and Tuttle who did all the planning of consequence. This may be verified by our firm name on the original drawings." I checked on that, and that is true.

"Mr. Bartholomew is not an architect and could not, under the laws of New Jersey, make a single sketch or plan of any building in the city of Newark. He could not gather data to compare with the surveys made by the Health and Welfare division. He cannot chart traffic flow as well as the police, and he cannot make any type of drawing as well as I and my staff."

This is the authority for my statement, and one of the principal reasons why I am voting against the resolution. And the other reason is that I feel and always will feel that we have just as good men in the city of Newark as we have in any other part of the country.

Mayor Murphy: I just wanted to say, Commissioner, this: Unless he

had a change of heart, he did express a preference for Mr. Villanueva then when the matter was thoroughly discussed, as I explained it before, over a period of at least an hour, and he voted favorably for this firm. Now of course he writes you a letter having a change of heart and sticks by the man he originally proposed. Of course we cannot help that.

The planning board, after going into the matter, felt as though it would be for the best interest of the city to employ his firm. And insofar as the traffic check is concerned, I think that is a matter for the City Commission, which is also a part of the planning board. And in many of these activities which are to be carried on, we are looking for help from the city and looking for assistance from all of the Commissioners. But that was a matter that was decided at the planning board meeting; and I am satisfied, at least myself, that it is for the best interest of the city to employ this firm so that we could go ahead with our planning for the future.

Commissioner Brady: I don't question, Mr. Mayor, the right of the other commissioners to exercise their prerogatives. But we do feel however that we have just as good in the city, or adjacent to the city, as I indicated at the meeting held prior to the adoption of the resolution, and I feel and I shall always feel that if we cannot produce as good here in Newark as we can in other parts of the nation( then our educational system is a failure. We have just as good here, whether it is planners or whether it is teachers or whether it is experts of any kind. I think we have here in our city people who would meet the requirements, and I believe they are just as well accomplished as anybody else.

Now, I don't know the qualifications of the men involved, but I do feel, after many years' experience in the city of Newark, and having lived here all my life, that planning is not too difficult, if the last report submitted by, I would say substantial citizens at that time, means anything.

They made recommendations up to 1950. Some of those recommendations were never carried out. And if we are going to be faced with the same system, and pay out maybe a couple of hundred thousand dollars in trying to have the tax rate lowered, it seems to me unwise and wasteful of the public funds of the city of Newark. And furthermore wasteful when we are giving it to somebody outside of the city who does not do business here.

Commissioner Villani: Mr. Mayor, may I say something in regard to that?

Mayor Murphy: Yes.

Commissioner Villani: I am sure that all of the commissioners want to see Newarkers get first preference in anything that goes on in the city of Newark. I held up the vote on this resolution for several weeks because I wanted to see myself that a Newarker be given preference. And through the press, particularly the Sunday Call, an article appeared wherein I asked whether there was any Newarkers who were capable of doing this kind of work, to come forward and let us hear from them.

Now, this matter has been in abeyance for less than a month, and I have yet to hear from any engineer either from Newark or close to the city of Newark. I have been ascertaining myself whether or not we have any people prominent along this field. We may have some

individual engineers who are prominent in certain fields; but I have not been able to find out whether or not we have any group of engineers who did this particular kind of work. I have been told by some high type engineers in this city that we don't have any such group that could handle this work. But as a group of men to set up a certain plan in the city of Newark, there is none equalled.

I took the matter up with Congressman Cavicchia, who is my representative on the planning board, and discussed it very thoroughly with him. And he was of the same opinion as I, that a Newarker be given preference. He being on the board, he gave it more time than I was able to. And he said a very extensive survey was made, and he reported to me that we have none around Newark who are able to do that type of work as a planning board. Individually, as I said before, one or two, yes.

He discussed the question of Villanueva with me — he is from Orange and in charge of the Orange Planning Board — and he said that although he is a close resident of Newark, that that was the closest that they could find of anyone who could do that type of work. But that Villanueva seemed to be very busy, and after discussing the merits of his qualifications, he felt he would go along with this St. Louis firm. And I feel that having Mr. Cavicchia on that board as my representative, the least I could do is to go along with that recommendation. And that is why I voted for it.

Commissioner Byrne: Mr. Mayor, I was appointed on that board by this commission, and I served at several meetings with them. I feel that this is a very fine committee. My father happened to be a member of the former planning board. I studied those plans, and it has not

altered my opinion that this is the proper thing to do. I am not impressed by the fact that Mr. Bartholomew might not be a registered engineer of the state of New Jersey. I don't think that Bob Moses could draw a blueprint; but I wish I had half a dozen of his type to do this work. But I feel that if we are going to appoint the commission to operate for the city, we must carry along and back them up when those businessmen give of their ability what is their opinion for the best interest of the city. And I think that is the reason a lot of us are in office now, because there were a lot of voters and taxpayers who thought that Newark did not produce the kind of up to date situation in the city that was planned in the past, and I think that is why we were given an opportunity to serve here. I think it is up to us to do something.

Commissioner Keenan: Mr. Mayor, in qualifying my vote in the affirmative for this resolution, I would like to say that I appointed on that planning board one of Newark's outstanding citizens in the person of Howard Isherwood, with whom I have had lengthy conference with regard to the merits or demerits of the hiring of the Bartholomew concern.

I was advised as to the ability of this fellow Villanueva; but he is not a resident of Newark—he is a resident of Orange. I have great faith in Howard Isherwood, both with his civic pride and as an interested outstanding citizen as I deem him to be, and I asked him whether or not it would be advisable, in the face of some qualifications on the part of this other man to consider him with regard to his ability to perform this work. I say we have a personnel on the planning board in whom we as commissioners place great faith. And they came to that

conclusion. There might have been a minority vote in the person of Frederic Bigelow, as a member of the Commission; but Fred Bigelow is a subordinate of mine, if you will, in the Department of Public Safety—

Commissioner Villani: (Interrupting) I would like to correct you on that. There was no minority vote. They voted unanimously.

Commissioner Keenan: But that is the information I got from Commissioner Brady, if I got it correctly. But Fred Bigelow is a subordinate of mine in the Department of Public Safety, and at no time did Fred Bigelow even deem it wise to discuss either the merits or demerits of the work of that committee with me as his director. And I say in comparison with the word of Howard Isherwood and Fred Bigelow, I will take the word of Howard Isherwood, and vote in the affirmative for the passage of this resolution.

Commissioner Brady: Mr. Mayor, I don't want it understood by the Commission nor do I want it understood by the citizens of Newark that I have not faith in my representative on the Board. I believe I have a good substantial citizen in Mrs. Kussy, and I believe she is a very competent and able woman. I don't believe that that is the issue, the question of the responsibility of the persons appointed at the suggestion of the various commissioners. I think the issue is, can we get just as good for less money? Now, it seems to me with all the explanations, that nobody has yet indicated whether Mr. Villanueva was asked or not. Statements were made, and his name brought up, and we thought, or rather the Board thought he was too busy. Well, I think that no one would know that better than Mr. Villanueva himself, and although he does live in Orange, he is not so far away that he cannot

be reached, within I would say fifteen minutes, from any part of the city of Newark. Certainly Orange cannot be placed in the same category as Missouri.

Commissioner Villani: But there is a difference.

Commissioner Brady: If you want me to answer the question Mr. Villani, I would say that the probabilities are that Mr. Villanueva will spend more money in Newark than anybody from St. Louis. If we are going to take money out of Newark, I believe we should give them an opportunity to spend it here. And I want it noted on the record that I have the utmost faith in my appointee; but I am very much interested in the money that is being expended, and these various facts that I called to the attention of the Commission. After all, we are the ones who will have to pay the bills. At the outset there were certain amendments made to the original planning board ordinance, so that the Commission, in the final analysis, would be the ones who would be held responsible for whatever monies are expended. And I am very much concerned about spending a substantial sum of money. We could have it done for half or for less than half. And that is my only reason for voting no.

I am not voting no, Mr. Mayor and members of the Commission because I take exception to what you may do as members of the Commission, and I am not voting no because I have the fullest faith and confidence in every one of the appointees of the various members of the Commission. I believe that Commissioner Keenan has a right to exercise his prerogative in accepting the verdict or advice of his representative. I might say that I know Fred Bigelow for 30 years or more, and his father was the

mayor of the City of Newark, and he was a police commissioner here during my period here as a member of the police department, and he is a recognized architect of ability. His name appears all over the former planning board sketches. And he certainly must be worthy of the name he bears when he is the superintendent of the buildings of such a large metropolitan city as is Newark. And I think we should take cognizance of the fact that these people who have served the city of Newark so faithfully are perhaps as interested in the city as we are.

Commissioner Keenan: Did Bigelow, as a member of the Commission, vote for Bartholomew?

Commissioner Brady: I don't know.

Mayor Murphy: Yes. The vote was unanimous. I mentioned that before. And just to straighten the record out, Commissioner, in reference to Mr. Villanueva, he was interviewed and he did submit in writing his qualifications before the planning board. And they were all gone over at a meeting of the planning board, a special meeting held for that purpose. And another point I want straightened out, Commissioner, is that all the money that will be spent, will go to people who will be working steadily on the payroll. Only part of this money goes to these people, for a period of three years I think it is, and I think it is twenty-one thousand and some odd dollars, to the firm of Bartholomew. The rest of it, to employees, engineers of Newark, and they will be steadily employed by the city, those that the city could furnish.

Commissioner Brady: The Commissioners will understand that I am reiterating the stand I took at the original meeting. I mean this is not something new. I did not have this

letter when I took the position I originally took at the meeting we held with Mr. Bartholomew and the members of the Planning Board.

Commissioner Keenan: Well, Mr. Bigelow evidently created a state of confusion in your mind, as he would in mine, having concurred in the appointment of one firm; and then he writes a letter to you individually objecting to the appointment of the firm he already concurred in.

Commissioner Brady: I think further commissioners, I should get in the record why the letter was written. I don't think he intended to bypass his director.

Commissioner Keenan: I take no other view.

Commissioner Brady: It seems in sending this letter to me, that at the time of the last meeting between the city commissioners and the city planning board, he left the building before I had registered my views. Apparently somebody who was present at the meeting told Mr. Bigelow my views, and he communicated with me, indicating that he was sorry he did not remain there, or could not have remained there, so he could have heard what my views on the matter were. As a result of that, he sent me this letter explaining his views.

Mayor Murphy: I think we ought to go ahead with zoning matters. I don't want to hold these people who are here now on zoning matters too long.

Commissioner Brady: Before we go into that, Mr. Mayor, there is a matter that was brought up at the conference concerning the district courts. I understand that Commissioner Byrne asked for a breakdown on it. We have that breakdown here now. This was a recommendation for bonuses made by the Judges of

both district courts. As the Commissioners are aware, I am certainly against bonuses. I have been always against bonuses, and I don't feel that I should honestly go along with this. However, I asked that it be submitted by the City Clerk, and I understand it was read during my absence. We have a breakdown here, if the Commissioners care to listen to it.

Mayor Murphy: It is all right if you want to go into it, Commissioner, but at the conference that matter was referred to you and to the Law Department. And the question was presented at that time whether any Commissioner had the authority to act on this recommendation.

Commissioner Brady: Suppose we let it go over until the next meeting. In the meantime I will prepare something for each Commissioner.

Commissioner Villani: I just want to make an announcement now that I am appointing Pasquale DeSpirito to serve on the Discrimination Board. You recall my representative on that Board resigned recently, and I was asked to submit a new name. I am now appointing Pasquale DeSpirito as a member of that Board. I mean by that, the Fair Employment Practices Committee.

Mayor Murphy: Will you please bring up the matter in which these people are involved, so that we don't have to keep them waiting?

City Clerk: We have a communication from Corporation Counsel Schotland in the matter of the application of Armen Saraydar for permission to convert a public garage at 277-285 Garside Street into a warehouse. It is addressed to the Board of Commissioners and it reads as follows:

"Complying with your request to advise you of my opinion as to the probable decision of the Supreme Court in the matter of the application of Armen Saraydar to convert a public garage at 277-285 Garside Street into a warehouse for groceries . . ."

(Mayor Murphy: (Interrupting) Is that the letter from the Law Department?

City Clerk: Yes.

Mayor Murphy: That letter was submitted to all the members of the City Commission. It is quite a lengthy one. Does the Commission wish the letter read?

Commissioner Villani: No.

Mayor Murphy: I have read it, and I am aware of its contents.

Commissioner Keenan: I am familiar with its contents.

Mayor Murphy: If there is no objection, it will be made part of the record, and we will proceed with the zoning matter on this question, or rather we will proceed with this application.

City Clerk: This is the application of Armen Saraydar, owner, for the conversion of a public garage into a warehouse for the storage and distribution of grocery and canned goods and the storage of fifteen delivery trucks in a third residence district; premises 277-285 Garside Street.

Commissioner Villani: Mr. Schotland, may we have an opinion on the status of this matter now? There seems to be some confusion with regard to it.

Mr. Schotland: The status is this: This application was made to the

Board of Adjustment for a variance permitting the change of a non-conforming use in the premises . . .

Mayor Murphy: (Interrupting) Counsellor, I think what the Commission is interested in, is whether this matter can come before the Commission today.

Mr. Schotland: That is what I am answering.

Commissioner Byrne: I thought, with your opinion on it, that the thing was as it was before.

Mr. Schotland: That is just what I am answering now. The Board of Adjustment recommended the waiver. Under the law, where the premises are more than 150 feet away from the zone in which that use could be made without any application to the Board, all that the Board of Adjustment could do is really what the Board did in this case, and that is a recommendation. That recommendation has no validity unless and until you, as the Board of Commissioners, by a majority vote sustain their recommendation. Of course if you reject it, that puts an end to it. If you sustain it, then it goes into force as a permit for the waiver.

In this case the previous voting resulted in nothing. There was no affirmative action disposing of it in either way, so that it is in the position where you could bring it up and act on it and note on it now, and have a record made as to what disposition the Board of Commissioners make on that application.

Commissioner Byrne: But wasn't the vote two weeks ago indicative of the Commission's decision when it did not uphold the Zoning Board? Does that not dispose of it, except for the appeal of Mr. Harkavy?

Mr. Schotland: It was indicative; but it was not dispositive. It was not decided. Two members of the Board wanted to lay it over and two members of the Board wanted to reject it. One was absent. And of course while it is indicative of something, I could not predict what the two members who wanted to lay it off would do when the five were present. Suppose after you laid it over and you looked into it, and you decided to go along with the Board of Adjustment — the absent member decided to go along with the Board of Adjustment — then it would be a three to two division.

Commissioner Byrne: You mean there was no acceptance of the offer in the application, and there was no meeting of the minds?

Mr. Schotland: There could only be an acceptance by the majority vote; and that has not taken place.

Mayor Murphy: This application as I understand it, Counsellor, is now before the City Commission, is that right?

Mr. Schotland: If you bring it up, yes.

Mayor Murphy: All right, then, it requires a vote by the City Commission to bring it up. The Chair will entertain a motion in order to bring this application before the City Commission.

Mr. Harkavy: May I have an opportunity to be heard, Mr. Mayor?

Mayor Murphy: What action the City Commission will take when this is before it, that is something else. The question now is will the City Commission adopt a motion to bring this matter before it for consideration. The Chair is open for a motion from the Commissioners.

Commissioner Byrne: Well, to be consistent, and as long as I voted and asked the Commissioners to allow a two week deferment on this, with Counsel present I believe on both sides — and we have this opinion from the Corporation Counsel — I would be willing to have a hearing on this now if any counsel will want to be heard.

Mayor Murphy: A motion then would be in order.

Commissioner Byrne: I so move.

Commissioner Brady: I second the motion.

Mayor Murphy: Motion has been made and seconded that the application be brought before the City Commission.

Commissioner Byrne: No, pardon me. I am moving first, the same as I believe Director Brady did. We asked for a two week deferment to look into this, and in the interim, Mr. Harkavy appeared before the City Commission last week quoting some opinion from some court, and in answer to that, Mr. Schotland, our Corporation Counsel had replied. Now, I want to know whether these people want to be heard. Do you want to be heard?

Mayor Murphy: It requires a motion by the City Commission in order to bring the application up that it could be heard.

A motion has been made by Commissioner Byrne and seconded by Commissioner Brady. All those in favor will signify by saying "aye." The Clerk will call the roll.

Yeas: Commissioners Brady, Byrne, Keenan, Mayor Murphy.

Naye: Commissioner Villani.

Mayor Murphy: I think that we are entitled to give these people an opportunity to be heard. As a matter of fact, I was not at the meeting, the last meeting, anyhow. Now, I will have read the application.

City Clerk: This is the application of Armen Saraydar, owner, for the conversion of a public garage into a warehouse for the storage and distribution of grocery and canned goods and the storage of fifteen delivery trucks in a third residence district; premises 277-285 Garside Street.

Mr. Harkavy: And approved by the Board of Adjustment.

Mayor Murphy: You heard the reading of the application. It is now before the City Commission. Is there anyone who desires to be heard in opposition to the application?

Lester E. Mahr and Fred Stickel, Jr., spoke against approval of the application. Abraham Harkavy, counsel for applicant, argued for approval.

Mayor Murphy: Is there anyone else who cares to be heard in favor of the application? Hearing from no one, the application is now before the City Commission. I now declare the hearing closed and the application is now before the City Commission for action. What is the pleasure of the City Commission?

Commissioner Keenan: Mr. Mayor, before the vote is taken, I rise to a point of information. I would like to know whether or not in voting "aye" or "nay," whether we are voting to sustain or rescind the action of the Zoning Board, or whether we are voting for or against an application to change the use of the building made before the City Commission.

Mr. Schotland: Mr. Mayor and gentlemen, the standing motion on questions that come from the Board of Adjustment should be this: "Shall the recommendations from the Board of Adjustment be concurred in or not?" If you vote "aye" you concur in the recommendation of the Board of Adjustment. If you vote "nay" you reject it.

Mayor Murphy: The matter is before the City Commission as to whether or not the action of the Board of Adjustment shall be sustained. A motion is in order.

Mr. Schotland: That is the motion.

Commissioner Villani: That is the motion. Let us take a vote on the motion.

Mayor Murphy: The application is now before the City Commission as to whether or not the action of the Zoning Board shall be sustained. All those in favor signify by saying "aye"; contrary "no." The Clerk will call the roll.

City Clerk: Commissioner Brady?

Commissioner Brady: Mr. Mayor, before I vote — I don't want to appear loquacious today — I had so much to say; however, I feel I should justify my vote in this matter. It is very important; and I have a very great deal of respect for the attorney who appears for the applicant. There is nothing before us, however, outside of the statement from Mr. Harkavy, that those petitioners who petitioned the Board to vote against it, were not aware of the fact that it was done for the purpose they intended. The people appeared here. There was a petition here from the people of that neighborhood; and it is very apparent here that they are sincere in their objections to the conversion. Therefore, in justice to the neighborhood

and in justice to the people of that neighborhood, I am going to vote "no."

City Clerk: Commissioner Byrne? "Aye."

City Clerk: Commissioner Keenan? "No."

City Clerk: Commissioner Villani? "No."

City Clerk: Mayor Murphy? "No."

Mayor Murphy: The Commission has voted not to concur in the recommendations of the Board of Adjustment.
